

Morning Star Bakery and Café

AVID Architects transformed an empty tenant space within a popular mixed-use destination into Morning Star Bakery & Café. The owners envisioned a warm, European-inspired bakery and café that would become a gathering place for the Bath Township community while complementing the property's growing collection of small businesses.

To realize that vision, AVID designed a hospitality-inspired interior centered around connection and craftsmanship. A central service bar combines pastry display, ordering, and baker preparation to create an engaging guest experience, while layered materials and carefully curated finishes give the café its warm, inviting character.

Since opening in April 2026, Morning Star Bakery & Café has become a destination for both residents and visitors, bringing new energy to the property and the surrounding community. With frequent lines out the door and pastries selling out daily, the bakery has established itself as a vibrant gathering place and a destination within the community.
