Work Experience

Web & Digital Specialist 2022 - Present Engineered Temperature Solutions

Led the company's digital presence through web design, development, SEO, AI search optimization, content strategy, and digital marketing. Built and managed ongoing website improvements, lead generation, automation, branding, and analytics to strengthen online visibility and support long-term business growth.

Marketing Coordinator 2021 - 2022 Smart Service

Coordinated digital marketing efforts through SEO, content strategy, blog management, website optimization, email marketing, and social media. Helped increase search visibility while supporting company-wide marketing campaigns and brand growth.

Interactive Multimedia Internship 2020 - 2021 CSCC

Created mobile application prototypes, UI designs, and interactive concepts while collaborating with the program coordinator to improve usability, visual design, and overall user experience throughout the product development process.

Education

Columbus State Community College 2019 - 2021 Associate of Arts - Interactive Media

4x Dean List 4.0 GPA
