Her Şey Bir Merhaba ile Başlar!

Jeannette Okur | Center for Open Educational Resources and Language Learning | 2021-02-24

SUMMARY

Her Şey Bir Merhaba ile Başlar! (https://merhaba.coerll.utexas.edu/) was developed for intermediate level Turkish language courses at the University of Texas at Austin. Intermediate learners and their instructors may use it for different purposes: self-study, classroom instruction, tutoring, or as a pastime. [...]

Why does University of Texas Libraries trust this item?

- **Hosted on Texas ScholarWorks (TSW):** The item is curated within the official open-access repository of UT Austin, an institutional network that restricts deposit privileges exclusively to verified UT faculty, researchers, staff, and sponsored students.
- **Authored by Credentialed Academic Experts:** This media-rich open educational resource (OER) was developed and vetted by Dr. Jeannette Okur at the University of Texas at Austin specifically for intermediate-level Turkish language curriculum.
- **Protected by Digital Preservation Infrastructure:** As an active record within the repository, this asset is backed by the Texas Digital Library consortium, which provides long-term preservation workflows to prevent link rot and maintain structural format integrity over time.
- **Assigned a Persistent Handle System URL:** The asset is permanently cataloged using a unique, machine-readable repository link, allowing external researchers to reliably find, cite, and audit the source file without encountering broken or modified URLs.

REVIEW

Our institutional repository makes a wide range of UT Austin scholarship publicly available, and this requires transparency about how that content is managed and stewarded. TrustMarc signals give our users a better view of the policies and practices behind the content in our repository. I'm glad UT Libraries can contribute as a TrustMarc development partner.
