# Local roots, mine-site capability

Savage Industries is a locally owned, family-operated business providing comprehensive mechanical support services to Mackay and the surrounding region.

Since our inception in 2012, we have committed ourselves to delivering exceptional service while maintaining competitive pricing. We take pride in offering honest, dependable and high-quality solutions to our valued customers.

Originally established as a local mechanical workshop, we employed local talent to provide vehicle servicing and maintenance expertise. With strong support from our local suppliers and a focus on building lasting relationships, we have grown to achieve excellent results for our clients.

That growth has taken us into mine site servicing and off-site maintenance, using fully equipped mobile service vehicles and equipment to meet the demanding needs of our industry.

**2012**
Established in Mackay

**30+**
Permanent employees, full-time & casual

**15+**
Subcontractors on call

**17**
Site-compliant service vehicles

**Same day**
Typical response for urgent deployment

## Our core values

### Integrity
Upholding strong ethical principles

### Growth
Embracing diversity and ongoing self-improvement

### Quality & safety
High-quality work with enhanced safety standards

### Honesty
Direct, transparent and honest communication

### Teamwork
A collective commitment to mutual success

# Services & capabilities

## Specialised shutdown team, labour hire, project delivery & workforce solutions

We provide qualified, skilled tradespeople, supervisors and site support staff for all work scopes, including:

- **Supervisors**
- **Diesel Fitters**
- **Mechanical Fitters**
- **Boilermakers**
- **CHPP Operator Maintainers**
- **Auto Electricians**
- **Light & Heavy Vehicle Mechanics**
- **Riggers**
- **Trades Assistants**

### Project management & site coordination

Our Business Operational Team provides end-to-end management of shutdowns, maintenance and construction projects to deliver exceptional results for our clients.

The team includes our Managing Director, Director of Finance & Administration, Workforce Scheduler, Training & Compliance Officer, Finance Administrator and Recruitment Officer, supported by on-site Project Managers and a highly experienced, qualified Supervisory Team.

### Safety & compliance

Our high level of safety assurance is the result of rigorous safety management, induction audits and compliance assurance.

We ensure our people and equipment are compliant and authorised for every client and site we service, so each work scope is completed to the highest safety standard.

### Technical support

A wide range of skilled labour for roles including ad hoc roster coverage in HME and Field Maintenance departments.

### Maintenance & repairs

On-site maintenance, breakdown response and asset management across a range of departments, both on and off site.

# CHPP shutdowns

Regular wash plant shutdowns, planned maintenance, breakdowns, construction, site set-up and commissioning.

Our week-to-week shutdown crew specialises in wash plant outages and periodic maintenance strategies.

- Centrifuge maintenance
- Crusher maintenance and repairs
- General plant maintenance routines
- ROM bin and feeder refurbishments, wear plate and chain replacements
- Screen repairs and sub-frame assembly rebuilds
- Thickener maintenance and component change-out
- Raw coal maintenance and refurbishments
- TLO outages and maintenance
- Structural remediation projects

# Off-site workshop

A fully equipped workshop in Paget, with the tooling and fabrication equipment to take work off site.

- Mechanical overhauls for light and heavy equipment
- Boilermaking and sheet metal fabrication
- CNC plasma cutting
- Drafting, technical drawings and CAD design
- Refurbishment of machinery and attachments

## Fabrication equipment

| | |
|---|---|
| **CNC plasma cutter** | 4,050 × 2,050 mm cutting area, capacity up to 25 mm |
| **Press brake** | 90T Steel Master |
| **Guillotine** | Steel Master |
| **Gantry crane** | 6.3T overhead gantry crane and hoist |

# HME field team

We maintain a dedicated Heavy Mobile Equipment field team for open-cut mine sites across Queensland. Our crews are experienced, safety-focused and fully equipped to support operational, maintenance and shutdown requirements.

## Core field disciplines

- Diesel Fitters (heavy mobile equipment)
- Boilermakers & Welders (structural repairs, fabrication)
- Auto Electricians
- Riggers & Crane Operators
- Mobile Mechanics / Service Technicians
- Site Supervisors / Shift Supervisors
- Shutdown & project crews (multi-trade teams)

## Typical scope of deliverables

- Reactive breakdown response, repair and on-site fault diagnosis
- Preventative maintenance and servicing programs
- Component replacement, welding and fabrication works
- Mechanical and electrical assemblies, alignments and commissioning
- Shutdown labour supply, supervision and plant support

## Geographical coverage

Servicing remote and regional mine sites across Mackay and the Bowen Basin, plus additional regional areas.

Mackay | Moranbah | Dysart | Blackwater | Clermont | Nebo

# Industry experience

Our main focus is open-cut coal mining, alongside local sectors across the Mackay region.

## Clients we have delivered for

| | | |
|---|---|---|
| Whitehaven Coal | BHP Mitsubishi Alliance (BMA) | Stanmore Resources |
| Terracom | Glencore Coal | Middlemount Coal |
| Sojitz Corporation | Thiess | Monadelphous Engineering |
| Sedgman | CWS Heavy Maintenance Repairs | De Goey Contractors |
| National Plant & Equipment | Farrelly Construction Services | McFadyen Pipeline Construction |
| Vansite Hire | ZIP Heaters (AUST) | Chubb Fire & Security |
| Premier Fire | O'Brien Plumbing Mackay | R8D Industries |
| Diesel Maintenance Services | Synclift Engineering | Werner Engineering |
| Richie's Engineering | AtraX Services | Bureau Veritas |

## Selected completed projects

- Burton ROM & feeder rebuild
- Newlands feeder rebuild
- Aury screen strip and sub-frame rebuild
- Walkway extensions and upgrades in CHPP
- High bay wash plant light bracket upgrade
- Conveyor & equipment guarding, fabricated and installed
- Reline of feeder chute plates
- Handrail extensions & modifications
- Crane static line upgrade and access points
- Grease chute collector from filter bat unit
- Electronic trailer brake upgrades, 124 on site
- AHA trailer brake upgrades
- Dozer blade and push arm refurbishments
- Truck chassis and tray refurbishments
- Trailer fabrication and builds
- Chain refurbishment & new assembly

Affiliated with **Vansite Hire**, manufacturer of mobile site offices for the mining, energy and resource sectors. We handle ongoing maintenance, repairs and site delivery of their vans.

Local repair and maintenance agent for **ZIP Water**, completing on- and off-site scopes from installation through to repairs and ongoing maintenance.

Preferred OEM maintenance team for **Tsubaki**, installing and repairing feeder chains, sprockets and drive assemblies.

# Why choose us

### Qualified workforce
Experienced, certificated and compliant personnel.

### Flexible & scalable
Rapidly expand or contract the workforce as your project demands.

### Local knowledge & relationships
A local, family-owned business with strong ties in the regional mining community.

### Proven track record
High-quality, compliant workforce solutions in the mining industry.

### Safety excellence
A strong safety culture, committed to zero harm and industry safety standards.

### Rapid response & deployment
Quick mobilisation, with same-day response typical for urgent requests.

### Advanced workforce planning
Industry-leading scheduling and management systems.

### Quality & continuous improvement
A dedicated team focused on client satisfaction and exceeding expectations.

- Elevated work platform
- Perform dogging
- Operate a forklift
- Standard 11
- Coal Board medicals
- BMA core inductions
- Queensland general construction induction (white card)

# Equipment & resources

A comprehensive fleet of service vehicles and plant, fully maintained and serviced in-house for quality control, consistency and reliability.

| | |
|---|---|
| **Site vehicles** | 17 fully fitted-out, site-compliant Toyota LandCruisers and Hiluxes, with upgraded trays and canopies for tooling and equipment storage |
| **Boilermaking trailers** | 500 A dual feeder welder, 75 CFM compressor, LN25 wire feeders, and all appropriate tooling and consumables |
| **Tooling & service trailers** | Site-compliant tandem axle trailers, fitted out for shutdowns and projects |
| **Shutdown standalone welder** | Site-compliant 600 A duo welder and compressor |
| **Site container** | 20 ft fully fitted container with specialised rigging and lifting equipment, larger tooling, PPE, and site- and job-required safety equipment |
| **Fabrication equipment** | CNC plasma cutter (4,050 × 2,050 mm, up to 25 mm), 90T Steel Master press brake, Steel Master guillotine, 6.3T overhead gantry crane and hoist |

## Safety & environment

Savage Industries is committed to a safe workplace, striving for zero harm at all times. Everyone has a part to play in protecting the health and wellbeing of themselves, their colleagues and the public. Our extensive OH&S policies and procedures uphold the highest safety standards in everything we do.

- Robust health & safety policies aligned with industry standards
- Ongoing safety training & initiatives
- An established record of achieving zero harm targets
- Environmental management programs in place to minimise impact

# Backing our community

We support, employ and source from the local community. Building strong relationships with local families and businesses has been integral to our success, and we are grateful for the opportunity to give back.
