

MARCH 2026

Kindergarten - Newsletter

Home School Connection - Over the next month, our class will find out what we can learn when we take a closer look. We will read books that “zoom in” on ordinary experiences and objects to notice the small but important details using our five senses. Have your child work on describing their environment using their five senses. For example, a day at the park, the beach, or even what they might see, hear, smell, taste, and touch if they were in the home during dinner time.

Reading

Theme: Zoom In!

(What can I learn when I look closely?)

Reading- How to blend sounds for reading and writing.

Blending Phonemes- /c/ /a/ /t/ = cat

Blending Word Parts- /c/ /at/ = cat

Writing

Writing to Teach

Work with your child on following directions in everyday tasks, such as recipes, following daily routines, playing a game, or doing something they know how to do. Encourage your child to teach others the steps to something he/she enjoys doing.

Science and Social Studies

Pushes and Pulls

Forces cause motion and can be applied by pushing and/or pulling on objects.

Geography, People, and the Environment

What makes a community?

Math

Count and Recognize Numbers to 20; and

Compose and Decompose Numbers 11-19

Have your child practice different ways to put number together for adding and taking numbers apart for subtracting.
