

The Arts

October 2026

Musical Theater

Students will spend the month of October exploring a selection of songs and dramatic activities inspired by autumn, Halloween, and folk music. They will work on singing, acting, movement, rhythm instruments and expression to bring the season of fall to life through the arts!

Art

Last month we were learning rules, routines, and an overview of what we will be learning this year. We are getting to know each other as artists. This month students will learn about Pablo Picasso, lines, shapes and create Fall projects. We will also be creating some Halloween projects for fun.

Music

Kindergarten students will care for & develop their voices with vocal warm ups. They will sing simple traditional, fall season, Halloween & children's songs. They will also coordinate movements & body percussion with rhythmic patterns. 2nd & 3rd grade recorder students will learn recorder care & maintenance. They will also begin learning the notes G, A, & B with long tones, tonguing, and various simple recorder songs.

Dance

This month the students celebrate Hispanic Heritage month. They will learn about El Jarabe Tapatio and Salsa. Students will continue to dance these styles as we move on to holidays. Students are also still reviewing rules and the routine of dance class.
