New AAF Website: “Extend The Trump Tax Cuts”

Dear Members and Staff,

Today, [Advancing American Freedom](#) is launching a new website, [ExtendTheTaxCuts.com](#). This website will serve as a one-stop shop for lawmakers and staff to find compelling fast facts, talking points, memos, and an in-depth report on the success of the 2017 Tax Cuts and Jobs Act (TCJA).

As you all know, failure to renew the tax cuts would result in a **\$4 trillion tax increase on American families.**

The topline facts include:

- A family of four earning the median U.S. income would face a \$1,695 tax increase if TCJA expires.
- Between 2017 and 2019, after passage of TCJA, household income rose by \$6,160, an increase from \$72,090 to \$78,250.
- 64.8% of Americans received a tax cut under TCJA, including:
 - 69.1% of those earning \$30,000–\$50,000
 - 81.7% of those earning \$50,000–\$75,000
 - 86.6% of those earning \$75,000–\$100,000
- If TCJA expires, over 25 million small businesses will face higher taxes.
 - This would likely mean a combination of higher prices for their products and services as well as layoffs.
- The corporate tax rate reduction led to the creation of 5.16 million jobs between 2017–2020, and corporate tax revenue rose by 41%.
- Although initially projected to add \$1.9 trillion to the deficit over ten years, TCJA generated \$2.583 trillion more revenue than anticipated, offsetting those deficit projections.

In addition, the following reports and memos are also included on the website:

- [REPORT: AAF's Conservative Blueprint to Protect American Taxpayers](#)
- [MEMO: American Families Won with the 2017 Tax Cuts](#)
- [MEMO: Flawed CBO Revenue Estimates Should Not Set Terms for TCJA](#)

I trust that you will find this website to be a trusted resource for engaging with constituents and the press about the importance of extending the 2017 Tax Cuts and Jobs Act.

Sincerely,

Tim Chapman
President
