

Advancing American Freedom Calls for Congressional Action to Support Israel

Israel, America's most cherished ally, has just endured barbaric attacks from the brutal terrorist group Hamas. Now more than ever, the United States must demonstrate that we stand with Israel and our allies around the world.

As the crisis unfolds, Advancing American Freedom calls on Congress to take immediate action to curb the threats to Israel and restore stability in the region. Initial measures include the following:

Iranian Assets Must be Targeted

All Iranian assets stored in European and U.S. banks must be frozen. The United States should work with our allies and relevant international financial institutions to ensure the Iranian regime no longer has access to the funds that fuel these atrocities. Biden's indefensible \$6 billion ransom payment must be recouped. Further, Biden has already given Iran a [\\$30 billion economic boost](#) by lifting the sanctions imposed by the Trump-Pence administration. Those sanctions must be reinstated immediately.

End All Taxpayer Funding to the Palestinians

The Trump-Pence administration was the first to end the hundreds of millions of dollars of UNWRA funding for the Palestinians, recognizing that they had allowed terrorist organizations to channel all funds they received into attacks on Israel. The United States must again adopt this policy and likewise cut off any other taxpayer dollars that could be used to fund future attacks or be funneled into state-sponsored terrorism.

Impeach Robert Malley

In light of the recent attacks, the American people must have answers on the Biden administration's special envoy to Iran who is currently under investigation for mishandling of classified documents and creating a permissive environment for Iran-backed Hamas. The House Committee on Oversight must continue to investigate the Biden administration's failed Iran strategy and their employment of officials with ties to the Iranian regime.

These measures should be the starting point of the United States' support for Israel in the midst of continued attacks from terrorist organizations and foreign adversaries. Advancing American Freedom will continue to work with members of Congress to advance these key priorities and restore America's role as leader of the free world.
