

## ADVANCING AMERICAN FREEDOM

**TO:** Grassroots Activists  
**RE:** Harris / DNC Platform Opportunity  
**FROM:** Tim Chapman, President, Advancing American Freedom  
**DATE:** 8/20/2024

The Harris-DNC policy platform is a massive gift to conservatives across the country. The platform doubles down on the failed policies of the Biden-Harris administration while going further than ever in plunging our economy into Soviet-style communism. Whether it be price controls, high tariffs, massive federal spending or sweetheart carve outs for favored companies one thing is for sure: this policy platform would impoverish our nation and drain the bank accounts of working families across the country.

If candidates can focus on the policy that the left is telling us they will implement, we can achieve a massive rebuke of this misguided effort. But accomplishing this requires conservatives to draw a stark contrast with the left. We cannot outbid their efforts to spend taxpayer dollars. We cannot stick our heads in the sand as our allies across the globe come under fire from terrorist-sponsoring regimes. We must clearly contrast our conservative principles with the left's liberal, dystopian policies. If we stick to principles, we will win the important debates before our country in 2024.

- Calls for expanding free community college. (55)
