

October 21, 2026

Dear Members of Congress,

Advancing American Freedom Foundation is proud to release www.advancingamericanfreedom.com/dsa-exposed highlighting the Democratic Socialists of America (DSA) unamerican extremism.

The DSA represents one of the greatest threats to Americans' life, liberty, and pursuit of happiness in perhaps American history. Regardless of party, members of Congress should roundly condemn the extreme policies and antisemitic rhetoric of the DSA.

Ranging from abolishing the Senate, police, and our borders, to a federal job guarantee and the federal government seizing private companies, this resource covers 12 areas of American life where the DSA is out of step with the American people.

The DSA calls for:

1. Abolishing the Senate.
2. Abolishing ICE and amnesty for all.
3. Publicly owned housing.
4. Voting rights for all permanent residents.
5. Ending all aid to Israel.
6. Federal jobs guarantee.
7. Seizing private companies.
8. Defunding the Department of War.
9. Abolishing the police and prisons.
10. Dramatically expanding union power.
11. Government run healthcare and extreme gender ideology.
12. Socialist feminism.

This is just a drop in the bucket. Over the next few months, AAF will continue exposing the DSA's radical agenda.

I trust that you and your staff will find Advancing American Freedom's resources valuable and we look forward to being of service to you and your team as you seek to advance policies that serve the American people.

Thank you,

Tim Chapman

President
Advancing American Freedom Foundation
