

Capability Statement

THE COMBINED GROUP

Strength in Every Connection, Delivering Lasting Impact

Our Clients

Acknowledgement of Country

I would like to acknowledge the Traditional Custodians of the lands and waterways on which we work. I pay my respects to Elders past, present and emerging, for they hold the memories, traditions and cultural knowledge of Aboriginal and Torres Strait Islander peoples across the nation.

WHO WE ARE

The Combined Group is a high energy, values driven construction company delivering capability, consistency and cultural integrity across diverse projects Australia wide.

As a proudly Supply Nation registered business with 38% Aboriginal employment, we bring meaningful community impact into every project we deliver.

Our team works collaboratively with clients, partners and communities, including in remote regions, to ensure project success from planning through to completion.

The Combined Group is owned and operated by Tim Atherton, a proud Gundungurra man, and Kain Abbott, a proud Wiradjuri man.

We care deeply about the work we do and the people we serve. Every decision we make is grounded in quality, safety, respect, and doing what is best for the project.

OUR VISION AND VALUES

We Get It Done

No excuses. Just Outcomes.

Accountability Always

Own it. Fix it. Deliver.

Built on Integrity

Honest words. Honest work.

Respect in Every Relationship

People. Clients. Country.

Strength in Every Connection

United teams. Lasting impact.

High Energy, High Standards

Driven, Focused, Dynamic

"We are committed to creating genuine pathways for Aboriginal people within the construction industry developing the next generation of leaders, breaking cycles of disadvantage, and setting new benchmarks for excellence, reliability and impact across our industry."

-Tim Atherton

OUR STRENGTH IS OUR PEOPLE

We bring together 15 years of experience, a highly capable, multidisciplinary team of experienced project managers, engineers, supervisors, operators, fabricators, and truck drivers delivering across both civil construction and structural metalwork. From early planning and design through to earthworks, fabrication, installation, and logistics, our team combines technical expertise with strong site leadership to deliver safe, efficient, and high-quality outcomes. This depth of capability enables us to self-perform critical civil and metalwork scopes, maintain program certainty, and meet the rigorous standards expected on Tier 1 and 2 projects.

WHAT WE DO

METAL WORK

- Fabricate and install custom steel, aluminium, stainless structural and architectural metalwork across all sectors
- Deliver complete engineered steel packages including drafting and detailing
- Provide secure-facility, rail, health, and water infrastructure metalwork with precision installation & commissioning

CIVIL CONSTRUCTION

- Deliver end to end civil solutions including earthworks, drainage, structures, roads and site development
- Execute specialist scopes in remote, sensitive and culturally significant locations with community-aligned delivery
- Provide compliant demolition, asbestos removal and environmentally responsible methodologies

WORKING WITHIN ABORIGINAL COMMUNITIES

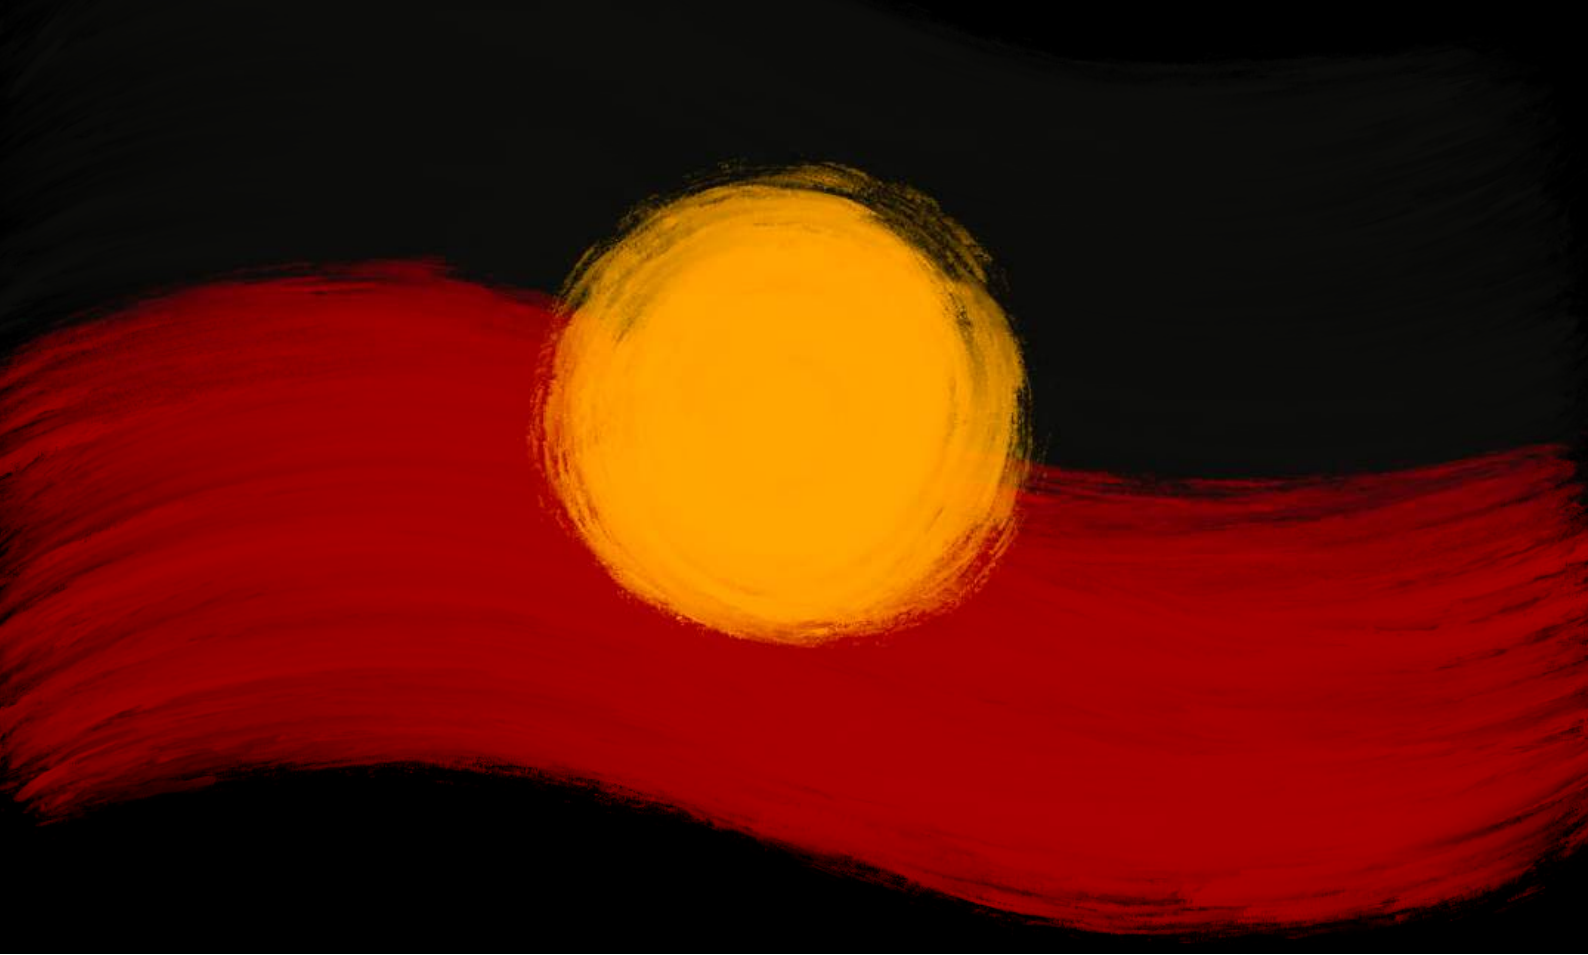

- Deliver civil works through culturally informed engagement with Elders, Land Councils and community stakeholders
- Support local employment, training and long-term capability development
- Adopt flexible, respectful methodologies that uphold cultural protocols and deliver genuine community benefit

PLANT, EQUIPMENT & TRUCK HIRE

- Cartage of materials within remote and rural regions
- Supply a reliable, well-maintained fleet including excavators (5-48T), trucks, NDD units and water carts
- Provide jet/vacuum truck services and liquid waste disposal across sewer, stormwater, sludge and oily water
- Offer short or long term hire with skilled, verified as competent operators
