

October 2026

Mrs. Curry, Room 103

Paraprofessionals – Ms. Jenna, Ms. Justine,
Ms. Maria, Ms. Paula, Ms. Regina, Ms. Tara

SEL

Students have been introduced to the Mood Meter, a tool they will use throughout the school year to indicate how they are feeling. We have been practicing using the tools in our class, "Calm Corner," to address emotions that may interfere with our day. We practice deep breathing every day to help remind us that our breath is a tool we always have with us to help us feel calm.

ELA

In Phonics, students will gain the skills needed for reading. Some students are working on their letters while others are learning strategies to read and spell words. In Reading, students have been working on story elements, beginning with characters. Understanding story elements will help us build the foundation for comprehension.

MATH

In Math, we are working on number exploration. Students are grouped based on ability. We are enjoying using place value to determine the number of days we've been in school.

Reminders

Check your child's folder every day. Encourage independence by having them take care of their personal belongings (i.e. folder, lunchbox, school bag). Please label all student items and please keep the red math book, Succeed, home.

Birthdays and Other Important Dates

Muhammad – 2 Benjamin – 21 Mrs. Curry - 26

No School – October 12 Family Engagement - 21
