Literacy

Orton Gillingham: During Orton Gillingham, we are using a multisensory approach to practice listening skills, pre-reading skills, rhyming, the vowel cheer, vowels vs. consonants, handwriting, letters and sounds. We began introducing two letters each week. So far your child has learned: Mm and Aa. This week we are learning the letters Ff and Ss.

Reading: We began Module 1 in Into Reading last week. In this module, we are discussing what we will discover in kindergarten. We are discussing the new people we will meet, the new places we will explore and the new skills we will learn. We will be reading both fiction and non-fiction texts that help us learn and build upon our topic. We will also focus on the skills of characters, setting and beginning, middle and end.

Writing: The first type of writing that we are working on during this module is opinion writing. We discussed what an opinion is and shared our opinions on a variety of topics. We also added a reason to support our opinions.

Eureka Math

In Module 1 we started learning about classifications of objects. We discussed "exactly the same" and "same but different." As the module progresses students will use their understanding of numbers and matching to answer a variety of "how many" questions.

Science

Kindergarten is off to a great start in Science! We are currently learning about our five senses, nature walks and what animals and plants need to grow! Soon we will meet our new friend Dash!

Social Studies

We got off to a good start in Social Studies! This month your children will learn about the United States flag and other American symbols, including the values and principles these symbols represent.
