Getting Ready for Kindergarten

Pre-K Assessments:

Ages and Stages Questionnaire: an individually administered screening instrument with parent collaboration, completed in the first weeks of school and used as a pre-assessment

Teaching Strategies: an authentic performance assessment based on teachers'

observations of children at work in the classroom completed throughout the school year

Family Engagement

Pre-K children will be receiving projects to be completed with their families based on The Creative Curriculum Studies throughout the school year. You will receive the instructions in your child's folder and Class Dojo. There will also be celebrations when families are invited to our classrooms throughout the year.

Reporting Absences

Please call the school the morning your child is absent. Your child must have a doctor's note or a note written by a parent explaining the child's absence upon his/her return to school.

Birthday and Celebration Procedures

Birthday and holiday celebrations are very special! For birthday parties, you may send in store bought cupcakes or donuts and juice boxes for the students. Paper plates and napkins would be appreciated. Please contact the classroom teacher beforehand to discuss the party. Older siblings in the school are not permitted to leave their classes to attend the celebration. Goody bags are not allowed to be given out in class, as per school policy.
