# Welcome to Study Abroad at APIC

The Study Abroad Program at APIC is designed for international students who want to experience higher education in Australia while continuing their degree at their home institution. The program provides a short-term academic experience that allows students to study in Australia, engage with Australian teaching and assessment practices, and broaden their global perspective without committing to a full Australian qualification.

Students can study at APIC for one, two, or three trimesters while remaining enrolled at their home institution. During this time, you will gain valuable international academic experience and may complete subjects that could be recognised for credit toward your home degree, subject to approval by your home institution.

As a Study Abroad student at APIC, you will join the College as an international student and study full-time on campus. You will attend face-to-face classes, complete academic assessments, and learn alongside other students in a supportive and professionally focused learning environment.

Study Abroad at APIC is a non-award program, meaning you will not receive a qualification from APIC. Instead, you will continue progressing toward your degree at your home institution while gaining the experience of studying in Australia.

# Why Choose APIC

Study Abroad at APIC offers international students the opportunity to experience Australian higher education while building confidence, independence, and a global outlook. With over 20 years' experience and a diverse community representing more than 60 nationalities, APIC provides a supportive and inclusive learning environment in Australia.

All Study Abroad subjects are drawn from APIC's TEQSA-accredited higher education courses, allowing students to study alongside degree students and receive an official academic transcript to support credit consideration by their home institution.

## **Study Abroad at APIC gives you the opportunity to:**

- Experience life and study in Australia through flexible, high quality, nationally accredited higher education subjects
- Develop academic and professional skills relevant to a global market
- Learn in small, supportive classes with personalised academic guidance
- Study alongside students from diverse cultural and academic backgrounds
- Gain international experience without extending the duration of your home degree

## **A learning experience designed around you**

- Small classes so you receive personalised support and feedback
- Industry-experienced academics who connect theory with real-world application
- Dedicated student support services, highly rated by students ([QILT 2025](#))
- Multiple campus locations across Australia, offering flexibility and choice

By choosing Study Abroad at APIC, you will gain international academic experience, exposure to Australian teaching and assessment practices, and the skills and confidence to support your future academic and professional goals.

# Study Destinations

Australia is a welcoming and diverse study destination where international students can combine academic study with a rich cultural experience. Studying in Australia offers the opportunity to learn in a supportive environment while experiencing life in modern, multicultural cities.

The APIC Study Abroad program is available across three Australian campus locations in Sydney (Parramatta), Melbourne, and Brisbane. This allows students to choose a city that best suits their preferred study environment, lifestyle and pace of daily life.

## Campus Locations in Key Australian Cities

### Sydney

Sydney is Australia's largest city and offers a dynamic, multicultural study environment. International students benefit from extensive public transport, a wide range of services, and the experience of studying in a major global city.

### Melbourne

Melbourne is well known for its strong student community and established education infrastructure. The city provides a vibrant and diverse setting that supports academic study alongside an active city lifestyle.

### Brisbane

Brisbane is a growing capital city that offers a relaxed and student friendly environment. Many international students are drawn to Brisbane for its warm climate, accessible transport and comfortable city lifestyle that supports focused study.

# Your Study Options

Study in Australia and experience life in one of the world's most welcoming and multicultural destinations. APIC's Study Abroad Program gives international students the opportunity to combine high-quality academic study with an engaging Australian lifestyle while remaining enrolled at their home institution.

Whether you are looking to broaden your global perspective, receive credit toward your home degree (subject to approval by your home institution), or experience real campus life overseas, APIC offers a flexible and supportive Study Abroad experience designed around you.

## Flexible Study Options to Suit Your Journey

Your Study Abroad experience should fit your life and academic goals. At APIC, you can choose to study for one, two, or three academic trimesters, depending on your study plan, credit requirements, and visa duration.

Each study duration is registered on CRICOS and issued with its own Confirmation of Enrolment (CoE), providing clarity before you arrive in Australia.

Study duration options:

- 1 Trimester (CRICOS No. TBC)
- 2 Trimesters (CRICOS No. TBC)
- 3 Trimesters (CRICOS No. TBC)

## Study Areas

APIC offers Study Abroad students access to a range of contemporary study areas aligned with global industry needs. Subjects are practical, career-focused, and internationally relevant, supporting credit recognition at students' home institutions.

Study areas include disciplines within:

- Business, Management and Analytics
- Project Management
- Health Management
- Accounting
- Information Systems
- Information Technology, including Artificial Intelligence, Enterprise Networks, Cyber Security, and Computer Networks and Security

Available subjects may vary by trimester. Students are encouraged to select subjects that align with their academic background and with credit approval requirements at their home institution.

## Entry Requirements

APIC has clear entry requirements to ensure students are well prepared for academic study in Australia. The Study Abroad Program is available to international students only.

- Be currently enrolled in a Bachelor's degree or higher qualification at a recognised overseas university or higher education institution.
- Meet APIC's Study Abroad Program English Language Proficiency requirements.
- Provide a letter of approval from your home institution confirming permission to participate in the Study Abroad Program.

English language proficiency is assessed in accordance with APIC’s Admissions Policy.

**Program Costs**

APIC's Study Abroad Program is structured to provide students with access to an industry-informed curriculum, experienced academic staff, and a supportive learning environment with smaller class sizes, contributing to a high-quality academic experience.

**Tuition Fees by Study Duration:**

| Study Duration            | Tuition Fee  |
|---------------------------|--------------|
| 1 Trimester (3 subjects)  | AUD \$12,300 |
| 2 Trimesters (6 subjects) | AUD \$24,600 |
| 3 Trimesters (9 subjects) | AUD \$36,900 |

All fees are stated in Australian dollars (AUD). Tuition fees are charged per subject and payable in accordance with APIC’s published fee schedule. Additional fees may apply based on individual enrolment circumstances and are outlined in APIC’s Fee Schedule. Living expenses and personal costs are not included in the fees listed above.

**Academic Outcomes**

On successful completion of the APIC Study Abroad Program, students receive formal academic documentation recognising their period of study in Australia and supporting future academic progression at their home institution.

At the conclusion of the program, students are issued with:

- an official APIC academic transcript, and
- a letter of completion confirming successful participation in the Study Abroad Program.

As the Study Abroad Program is a non-award course, no Australian degree, diploma, or testamur is issued. Academic documentation may be used by students to support further study or credit assessment at their home institution, subject to that institution's requirements.

### **Credit Transfer Information**

The APIC Study Abroad Program is designed for students who wish to apply for academic credit at their home institution for studies completed at APIC.

Key information regarding credit transfer:

- Students are not eligible to receive credit towards APIC subjects within the Study Abroad Program.
- Students may be eligible to apply for credit transfer at their home institution for subjects completed at APIC.
- Credit transfer outcomes are determined by the student's home institution, and APIC does not guarantee credit approval.

Students are strongly encouraged to obtain written confirmation of credit approval from their home institution prior to applying. APIC provides official academic documentation, including transcripts and completion letters, to support credit assessment processes.

### **Student Visa Information**

All students enrolled in the APIC Study Abroad Program undertake their studies in Australia on an appropriate student visa and must comply with all visa conditions and institutional requirements for the duration of their enrolment.

To study at APIC, students are required to:

- apply for an Australian Student Visa (subclass 500),
- accept an offer of admission before a Confirmation of Enrolment (CoE) is issued, and
- maintain valid Overseas Student Health Cover (OSHC) for the full period of their stay in Australia.

Admission to the Study Abroad Program is conditional upon meeting academic, English language, visa and admissions requirements as necessary.

## Additional Information

Students and education partners should also note the following important information:

- program structure, subject availability, and fees are subject to change,
- participation in the program does not guarantee academic credit transfer, further study, or migration outcomes, and
- students are responsible for maintaining compliance with all visa conditions and APIC policies throughout their studies.

APIC is committed to transparency, academic integrity, and regulatory compliance, ensuring students are fully informed before and during their study experience in Australia.

## Key Facts

**Program Name:** APIC Study Abroad Program

**Provider:** Asia Pacific International College Pty Ltd (APIC).  
(PRV12007 CRICOS No: 03048D)
