

EXECUTIVE OVERVIEW

The Genesis Enterprise 7 Frameworks™

The order in which an enterprise must be built to outlast its founder —

READING TIME	TOPIC	FIELD
2 minutes	Complete Architecture	Organizational Design
0	ALIGNMENT	<i>Position before you build. Chaos is diagnosis, not doom.</i>
1	VISION	<i>Comprehension precedes construction. See it before you build it.</i>
2	STRUCTURE	<i>Boundaries make growth possible. Forge it before you fill it.</i>
3	SYSTEMS	<i>The seed reproduces after its kind. Encode the standard, not just the task.</i>
4	GOVERNANCE	<i>Predictability precedes trust. Govern by rhythm, not reaction.</i>
5	SCALE	<i>Multiply in kind, within bounds. Prepared environments release abundance.</i>
6	REPRESENTATION	<i>Formation precedes commission. Authority within a named domain.</i>
7	REST	<i>Completion precedes rest. Rest is the audit, not the reward.</i>

Each law traces to a Hebrew term the English translation quietly loses, paired with named organizations that held it — or broke it.

Business Was God's Idea

The complete architecture behind these eight frameworks.

BUSINESS WAS GOD'S IDEA
