

NO NONSENSE: THE PLAN

Bobby Charles for Governor of Maine

THE MISSION

Maine taxpayers are not an ATM for political games, social experiments, or insider deals. Because of that, today I am proud to release my No Nonsense Plan outlining exactly what I will do as Governor to end the nonsense in schools, in Augusta, and everywhere in between.

"Cut crime. Cut taxes. No nonsense."

1. NO NONSENSE IN SCHOOLS

Maine classrooms should teach kids, not push agendas. On Day One I will drop the Title IX lawsuit wasting your money to keep boys in girls' sports, pass the Academic Excellence Act to tie all education funding to literacy, math, and science, and restore full parental transparency into what's being taught.

"Teach kids. Don't indoctrinate them."

2. AXE THE DEI BUREAUCRACY

State agencies have been loaded with DEI positions that do nothing but push ideology on your dime. The state's own budget documents show a single DEI coordinator position costs Maine taxpayers over \$130,000 a year in salary and benefits. On Day One I will disband every DEI office in state government and return to merit-based hiring. Best person for the job gets the job. Period.

"Not one more taxpayer dollar for bureaucrats whose only job is ideology."

3. NO NONSENSE IN HEALTHCARE

Governor Mills just put \$2.25 million of your tax dollars into a budget backfill for Planned Parenthood. She also signed a law letting 16 and 17-year-olds receive gender-affirming hormone treatments without parental consent. I will end both. Parents make medical decisions for their children, not the state. And I will redirect those dollars where they belong: rural healthcare, nursing homes, and senior prescription coverage.

"I will not spend a single dime of your money to tell a child they were born in the wrong body." - Bobby Charles

4. END THE CORRUPTION IN AUGUSTA

Maine's own Democratic state auditor found over \$1.6 billion in contracts processed while ignoring the state's own rules. The Bangor Daily News quietly received \$2.4 million in state contracts under Mills, none disclosed to readers. A Soros-backed media outlet got \$117,300 via a no-bid contract. When Mills took office the budget was \$8.9 billion. It's now nearly \$12 billion. Where did it all go? On Day One I will establish an Independent Accountability Task Force, end no-bid contracts, and make the findings public.

"The audit begins on Day One."

Maine deserves a government that works for YOU, not against you.

Cut crime. Cut taxes. No nonsense.

If you agree, I'm asking for your vote straight across. Early voting has begun and Election Day is June 9th. You can also check out my full plans on energy, property taxes, and cutting crime at bobbyformaine.com.
