

2nd International Conference on Orthobiologics

Program & Sessions
Orthobiologic Foundation Course

Thursday, October 8th 2026

@ De Hoorn, Leuven, Belgium

This program serves as a guideline only and can be subject to change.

2nd International Conference on Orthobiologics

Building the Future of Regenerative Medicine

As a pioneering non-profit organization EnRM (European Network for Regenerative Medicine) is dedicated to advancing regenerative medicine across Europe and therapeutic domains. Unlike traditional organizations that focus on a single therapeutic area, EnRM's unique approach lies in its commitment to uniting experts from diverse fields into a cohesive, collaborative ecosystem where knowledge and expertise flow freely.

Steven Heylen, MD

Anita van Domselaar, MD

Peter Everts, PhD

Schedule Moderators : Steven Heylen, Peter Everts.

13.00 – 13.10	Welcome & Introduction Anita van Domselaar & Peter Everts
13.10 – 13.40	The Orthobiological Landscape Peter Everts
13.40 – 14.10	Evidence-based Orthobiologics Luga Podesta
14.10 – 14.40	PRP Biology & Processing Robert Talac
14:40 – 15:10	BREAK
15:10 – 15:40	How to select the orthobiologic for tendon and OA and important considerations(nutrition, exercise, general health) Leonardo Oliveira
15:40 – 16:10	Patient Preparation, Safety and Contra-Indication Gabriel Azzini
16:10 – 16:40	From inflammation to Regeneration: MFAT and PRP as Cornerstones of Orthobiological Medicine Nathan Katz
16:40 – 17:10	Expert talk: Fa(c)t or Fiction: Physiology, Technique & Clinical Translation of SVF Joris Van Dongen
17:10 – 17:30	BREAK
17:30 – 17:50	Ultrasound-Guided Orthobiologics Philip Steele
17:50 – 18:10	Regulation and Ethics Ansar Mahmood
18:10 – 18:30	Building an Orthobiologics Practice Markus Klingenberg
18:30 – 19:00	Expert Panel & Q&A

Reception and walking dinner

2nd International Conference on OrthoBiological Medicine.
