

Application for Use of the Joint Submission Dossier “Calcium Sulfate 231-900-3” under EU REACH

1. Applicant

Company applying for use (Entity's name & legal form)	
Representative person (Name & surname)	
E-mail address	
Telephone number	
Company's VAT Number (No application will be processed without a VAT number)	
Business entity's (or corporation's) registration number	
Invoicing address (incl. country name)	
UUID Number	

2. Nature of the application

Joint submission dossier	Calcium Sulfate 231-900-3 (under EU REACH)		
CAS number	7778-18-9		
Chemical name	Calcium sulphate (see section 2 below)		
Toxicity type	None		
Purpose of use	Fulfilling the obligations under the EU REACH Regulation		
Tonnage band	1-100 tpa (tonnes per annum)	☐	[EUR 5,000]
	> 100 tpa (tonnes per annum)	☐	[EUR 11,750]
Any additional remark			

3. Substance covered by the joint submission

Chemical name	EINECS	CAS	Formula	Typical content % (w/w)	Lower Content % (w/w)	Upper Content % (w/w)
Calcium Sulphate	231-900-3	7778-18-9	CaSO ₄	87%	70%	100%

Impurities

Clays	0 % - 30 %
Calcite, dolomite	0 % - 30 %
Silica	0 % - 10 %
Celestine	0 % - 4 %
pH	5-9

Please note: Companies intending to register CaSO₄ containing impurities not identified in this specification, even if present in quantities <0.1 %, that have an effect on the hazard classification of this substance are responsible for declaring these impurities and addressing any subsequent additional data or information requirements in their own registration dossier. This can be done using the PNECs and DNELS of the relevant substances when available.

4. Signature

We hereby apply for the use of toxicity data in the Joint Submission Dossier referred above and commit to comply with EU financial sanctions in place, by returning the separate compliance form.

Date	
Name	
Signature (or seal)	

Please complete this form and return it to the Coordinator (EUROGYPSUM) by e-mail: t.suffys@eurogypsum.org
