

Spring 2026

Dear Friend of HART,

HART has always believed that compassion is strongest when shared. Today, we are asking for your partnership as we work to care for a growing number of animals who need our help.

In recent months, our shelter has seen a heartbreaking increase in animals being dropped off at our door after hours. These animals arrive alone in the dark, frightened, starving and in pain, with no one to comfort them until staff discover them the next morning. They are left in soiled boxes that have been “Home” to them. While others are tied to the door in all kinds of weather. Every one of these dear souls depends on us the moment we find them.

We never turn them away. We never will. But the truth is that the cost of medical care and housing of these animals until they are ready for adoption as well as unforeseen problems that arise have stretched our resources to the max.

Your support allows us to rescue the abandoned, heal the injured, comfort the frightened, and prepare each animal for a loving forever home. Every act of kindness helps us give these animals the safety and compassion they were denied before they reached our door.

Together, we can ensure that every animal who comes through our doors receives the care and dignity they deserve.

Thank you for believing that even the most vulnerable animals deserve love, dignity, and a chance to heal.

Sincerely,

*Donna Wambeke*
