Capability Statement

SBA-CERTIFIED SDVOSB AND VOSB

Fuel | Aviation Services | Mineral Development | Henderson, Nevada

SERVICE-DISABLED VETERAN-OWNED CERTIFIED

VETERAN-OWNED CERTIFIED

Company overview

Grappa Investments LLC is a Nevada limited liability company established in 2005 and led by its majority owner and Chief Executive Officer, Jorge D. Pacheco, a service-disabled U.S. Navy veteran. Grappa is structured to pursue prime contracts across three lines of business: bulk fuel supply, aviation support services, and mineral development.

Core competencies

Fuel supply. Bulk refined petroleum products, including diesel, jet fuel, gasoline, and fuel oils, plus lubricating oils and greases, for the Department of Defense, federal agencies, and qualified private buyers. Grappa's model is to source product from established refiners and suppliers, take title, and deliver to contract specification through third-party terminal operators, both domestically and at international supply hubs.

Aviation support services. Aircraft inspections and pre-buy evaluations; aircraft recovery and ferry services; line maintenance and repair-station support; safety management system, emergency response, and inspection training; maintenance technician and AS9100-series certification preparation; airport operations planning, FBO management, aircraft conformity, and STC support consulting. Work is staffed by Grappa-hired personnel under the technical direction of our partner, Channey Aviation Group of Las Vegas.

Mineral development. Holder of 24 unpatented placer claims (approximately 480 acres) in the Moapa Valley area of Clark County, Nevada. The Yellow Jacket Project is exploration-stage and under independent technical review; no mineral reserves have been established.

Leadership experience

Grappa's fuel division is newly established and does not yet have federal past performance. Its CEO brings prior experience as a fuel broker, U.S. Navy aviation service, and academic training in business administration, finance, and professional management from California State University, Long Beach and the University of Miami.

Differentiators

Owner-led accountability. The CEO is the qualifying service-disabled veteran and the contracting officer's direct point of contact.

Experienced aviation partner. Our aviation partner, Channey Aviation Group of Las Vegas, brings experience in FAA-regulated aviation operations and technical services.

Transparent capability. Grappa distinguishes clearly between its own capabilities and the experience of its partners, and does not present partner work as Grappa past performance.

Quality discipline. Leadership background includes 8.5 years of U.S. Navy active duty as a helicopter aircrewman, serving as quality-assurance supervisor and crew chief.

Bilingual. Business conducted in English and Spanish.
