ACCENT

ECOWire™

SAFETY. SUSTAINABILITY. SAVINGS.

WE HANDLE THE CONVERSION.

NO UPFRONT CONVERSION COSTS. NO HASSLE. JUST RESULTS.

EcoWire™ is a next-generation sustainable baling wire made from 100% recycled polymer, engineered with Accent's patented technology to match or exceed the performance of steel baling wire.

5 REASONS YOU'LL NEVER GO BACK TO STEEL

PROTECT YOUR PEOPLE

Eliminate sharp cut ends, oily floors, and fire hazards—creating a safer workplace for your employees and your customers

LOWER YOUR CARBON FOOTPRINT

Made from 100% recycled PET. Delivers up to 90% lower CO_2 footprint vs. steel (material basis)

CUT YOUR COST

Save 10%+ on wire while reducing maintenance, wear-part replacement and equipment downtime

MAXIMISE YOUR SPACE

Store more wire in less space, ship more per truck, and safely store outdoors

EXTEND SAVINGS TO PAPER MILLS

Reduce ragger or steel wire disposal costs by 10%

10%+ SAVINGS FOR THE BALER & 10%+ SAVINGS FOR THE USER

EcoWire combines lower wire costs with broader operational value. Accent handles the entire conversion—including the cost—making the switch seamless.

THE RESULT

Additional value comes from reduced part wear, lower maintenance impact, improved uptime and cleaner handling.

EcoWire also supports lower CO_2 targets, reduced ragger disposal impact and improved de-wiring residual value.
