RECYCLED Landscape Materials

Quality products at reasonable prices!

QUACKENBUSH BLENDED COMPOST — Free

Grape pomace is added to our Quackenbush compost which increases the nutrient content of the compost. The compost has dark rich color and fine texture. The compost is screened to 3/8" minus.

QUACKENBUSH COMPOST — Free

Purely green-material compost. Composted for several months to give a rich color and a medium texture. The compost is screened to 3/8" minus.

TOPSOIL — $41.00/ton

Topsoil is mixed with 60% compost and 40% soil to be extra rich in organic matter great for new lawns, gardens and other applications.

3/8" MINUS WOOD CHIPS — Free

Finely ground screened to 3/8" minus good for topdressing and mulching.

1" WOOD CHIPS — Free

Has a golden color, a course texture, and is good for topdressing.

SUSTAINABLE BASE — $21.00/ton

Base is made from recycled concrete, asphalt, rock, and ceramics. This product is then crushed and screened to 3/4" minus, making it excellent for driveways, roads, and paths. Use it as an alternative to traditional Base Rock.
