Winter 2022

C&S WASTE SOLUTIONS OF LASSEN COUNTY

Annual Newsletter

Friendly Reminders

Collection Days
Please have all carts roadside by 6:00 a.m. on your collection day.

Cart Placement
Place carts at the road's edge, 3 ft. apart, with the lids positioned to open toward the street. Keep carts away from all obstacles, such as cars and mailboxes.

Missed Pick-Ups
If your trash or recycling was missed or not set out for collection, please call our office within 24 hours.

Recycling Contamination
Please keep recycle carts free of trash related items. We have additional garbage bags available for waste, if needed, so please do not place extra trash in your recycling container.

The Back of Your Bill
Be sure to check the reverse side of your invoice for more information concerning our services.

Optional Services

Greenwaste Service
Greenwaste service is available to our residential customers for an additional fee.

Debris Boxes/Cleanup Bins
3 and 6 cubic yard cleanup bins are available for small household cleanups. 15, 20, and 30 cubic yard roll-off boxes are available for remodel, construction, landscape tear-out, and large cleanups.

NEW CA LAW RESERVES RECYCLING ARROWS FOR ACTUAL RECYCLABLES

California Legislature has passed a bill to reserve the infamous recycle arrows for containers that are truly recyclable. Companies will have until January 2024 to make the change.

So why do companies use the recycle symbol if the item is not recyclable? There are a few reasons for this. Some items that are not recyclable in your curbside cart ***ARE*** in fact recyclable at specialty centers. These types of items can include bubble wrap or Styrofoam. Additionally, some companies use the recycle symbol on a container to let a customer know that it was made from recycled material.

You may still see numbers on plastic items, but they will not be surrounded by the recycle symbol. The number that plastics are given is still important, as it is a notice to customers. Each number on a plastic item lets you, the consumer, know the type of plastic you are handling.

What this means for the consumer: easier recycling! □

THE BENEFITS OF RECYCLING E-WASTE!

When you sign up for residential service you automatically get E-Waste removal limited to five items per year. What is E-waste? E-waste is short for Electronic Waste, which consists of electronic devices that have reached the end of their useful lives. Electronic waste items include TVs, remotes, computers, printers, radios, CD & DVD players, solar panels, and small medical devices. C&S Waste will remove them for you when scheduled.

Why is it important to dispose of E-waste properly? E-waste needs to be disposed of properly to keep our environment clean and safe. E-waste items can have toxins–such as heavy metals and polycyclic aromatic hydrocarbons –that seep into our environment. Proper disposal of E-waste can keep our planet clean. When E-waste can be recycled, it is possible to recover materials such as gold, copper, glass, aluminum, lithium, plastic, and more.
