CERTIFICATE OF SUSTAINABILITY

The Sakala Resort Bali

has sucessfully implemented best-in-class operations and procedures for the safe and sustainable collection of used cooking oil (UCO), in full compliace with the principles and requirements of the International Sustainability and Carbon Certification (ISCC) framework.

Certified Sustainability • ISCC • Certified GHG Savings

These standards ensure UCO is collected, stored, and recycled responsibly, enabling its processing into biofuels and supporting the global transition toward a circular economy.

This certification confirms its recipient is a trusted partner of noovoleum in advancing sustainability and demonstrates measurable contribution to environmental protection and climate action.
