All about performance and versatility

Lexmark CS737dze

The Lexmark CS737dze color printer is versatile for both traditional and specialized media to meet a variety of business requirements. Designed for customers who require mid-to-large workgroup color devices, with monthly print volumes up to 20,000 pages. Lexmark's new VariTherm™ technology offers exceptional print performance in off-standard printing such as greeting cards, pill pack labels, hazardous materials labeling and a whole range of narrow printing uses at speeds up to 52/50 ppm (letter/A4)* and 25 ppm (narrow).

Optimize print performance with Lexmark's new VariTherm™ technology

- ▶ Lexmark's new VariTherm™ technology senses media size and adjusts heating for the media width to offer exceptional print performance on media narrower than 8.5 x 11 inches or A4.
- ▶ Particularly suited to industries such as healthcare (medicine labels, chart cards, badge media), manufacturing (paint can labels, lumber and steel tags, bar codes), and retail (signage, bottle and box labels).

Security features protect your data, your device and your network

- ▶ Security ecosystem is designed to overcome the most complex data challenges.
- ▶ Includes standard Trusted Platform Module** that stores encryption keys on separate hardware from the data, along with authentication and system integrity checks.
- ▶ Cryptographic capabilities create a unique digital fingerprint.

Easy to manage without burden on IT staff

- ▶ Our sophisticated, IoT-enabled printers are loaded with sensors that continuously monitor hundreds of data points.
- ▶ When you connect your device to Lexmark Cloud Services, you can optimize performance and uptime with additional features like predictive service and automatic supplies replenishment.

Professional color for all your print jobs

- ▶ Enjoy vibrant color with standard advanced features like PANTONE® calibration and Lexmark Named Color Replacement for consistent branding and professional appearance.
- ▶ Models ship with 5000-page black and color cartridges.***
- ▶ Cartridges are also available with yields up to 22,000/12,500 pages (black/color). ***

Easily customize your printer

With the embedded solutions framework, you can add Lexmark solutions or third-party partner solutions that meet your specific business needs.

This is a Class A device according to international electromagnetic emissions standards (i.e. FCC Rules, EN 55022/EN 55032, etc.). Class A products are intended for use in non-residential/non-domestic environments. Use of a Class A product in residential/domestic environments may cause interference to radio communications and require corrective measures.

* Print speeds measured in accordance with ISO/IEC 24734 (ESAT). For more information see: www.lexmark.com/ISOspeeds.

** The Trusted Platform Module (TPM) is not available in some countries.

*** Average continuous black or continuous composite color (CMY) declared yield in one-sided (simplex) mode up to this number of pages in accordance with ISO/IEC 19798. Actual yield will vary considerably based upon many factors. See www.lexmark.com/yields for more information.

² "Recommended Monthly Page Volume" is a range of pages that helps customers evaluate Lexmark's product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage. ³ "Maximum Monthly Duty Cycle" is defined as the maximum number of pages a device could deliver in a month using a multishift operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs. ⁴ Product functions only with replacement cartridges designed for use in a specific geographical region. See www.lexmark.com/regions for more details. ⁵ Average continuous black or continuous composite CMY declared cartridge yield up to this number of standard pages in accordance with ISO/IEC 19798. ⁶ Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. ⁷ Printers are sold subject to certain license/agreement conditions. See www.lexmark.com/printerlicense for details.
