

■ LAND FAMILY / INCLUDES CORE

RTK Premium

The top-tier service for survey-grade work where precision and continuity cannot be compromised.

UPTIME SLA

99.9 %

+ REFUND, WHERE REDUNDANT

BUILT FOR

Survey-grade operations that need vertical precision and cannot absorb a service outage, where downtime is costly or puts people at risk.

POSITIONING

No market equivalent. Competing services do not match this redundancy and SLA. When one network fails, your operation does not.

AT A GLANCE

RTK PREMIUM

PRECISION

< 1.5 cm horizontal, < 2.5 cm vertical

TECHNOLOGY

Redundant NRTK where available, else single source

SLA

99.9% + refund where redundant; best effort elsewhere

SUPPORT

Response < 2 h, business hours

COVERAGE

Europe, Türkiye, South Africa, Japan, North America, Australia. Brazil planned.

FORMATS

RTCM 3.x

PROTOCOLS

NTRIP v1, v2

BUSINESS HOURS

9am – 5pm CET

OPTIONS, AT EXTRA COST

L-band

BUSINESS HOURS: 9AM – 5PM CET (EUROPE AND USA). REFUND: PARTIAL TO FULL, BASED ON ACTUAL UPTIME. 99.9% + REFUND SLA APPLIES WHERE REDUNDANT NRTK SOURCES ARE AVAILABLE (SEE COVERAGE MAP); THE SINGLE AVAILABLE SOURCE WITH BEST EFFORT APPLIES ELSEWHERE.

■ LAND FAMILY / INCLUDES ACCESS

RTK Core

The market-equivalent service: the same field precision as Premium, at a sharper price.

PRECISION

< 1.5 cm

HORIZONTAL • NRTK

BUILT FOR

Operations that need centimetre precision but are price-sensitive, and can work with a single-source network without credit-backed continuity.

AT A GLANCE

RTK CORE

PRECISION

< 1.5 cm horizontal, < 2.5 cm vertical

TECHNOLOGY

NRTK, single source

SLA

Best effort

SUPPORT

Response < 4 h, business hours

COVERAGE

Europe, Türkiye, South Africa, Japan, North America, Australia. Brazil planned.

FORMATS

■ LAND FAMILY / ENTRY TIER

RTK Access

Entry-tier positioning for operations with lighter precision needs.

PRECISION

3–7 cm

2D • PPP-RTK

BUILT FOR

Segments where 2D accuracy at the few-centimetre level is enough and vertical precision is not required.

AT A GLANCE**RTK ACCESS**

■ MARINE FAMILY / LIVE

RTK Seas

Dedicated marine corrections that hold precision and continuity from the coast to open water.

PRECISION

2–10 cm

3D • BY DISTANCE FROM SHORE

BUILT FOR

Marine operations that need reliable positioning across coastal, nearshore and offshore zones.

AT A GLANCE**RTK SEAS**
