CONNECTIVITY FAMILY / SIMS & ESIMS

IoT SIM

Reliable, continuous, low-latency Internet connection in the field.

ROAMING FOOTPRINT

224

COUNTRIES · MULTI-OPERATOR

No compromise on availability

Roaming agreements in most countries of the world, so a device always has a next-best network.

Robust field connectivity

IoT SIMs for a secured datalink, built for the most demanding applications.

Optimised for fleets

Data is pooled among your fleet of SIMs, instead of a fixed plan per device.

Easy management

Web portal for remote management, dedicated API to integrate it in your own ecosystem.

AT A GLANCE

IOT SIM

SPECIFICATION

FORM FACTOR	NETWORKS	ROAMING
SIM or eSIM	3G, 4G/LTE, 5G	Multi-operator, per country
DATA MODEL	**DATA PLANS**	**MANAGEMENT**
Pooled across the fleet	1, 2.5, 5, 10, 25, 50 GB, and more	Web portal and API

USE CASES

IoT | Geolocation services | Telemetry
