Cyber Security Policy –
Pave Securities, LLC

Pave Securities, LLC (“Pave Sec”) is registered as an introducing broker dealer with the Securities and Exchange Commission ("SEC”) and a member of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation (“SIPC”). Pave Investment Advisors, LLC (“Pave IA”) is an SEC registered investment adviser. Both Pave Sec and Pave IA are wholly owned subsidiaries of Pave Finance, Inc. (collectively, “Pave”). Pave does not act as a custodian, clearing agent or maintain client accounts or have access to clients’ funds. Given the investment services provided by Pave, transactions for each client account are either traded directly within a client account, traded with other securities in blocks and delivered into the client account, or will be implemented independently by each client. Pave has no ability to control or access funds or securities within a clients’ account.

However, Pave has developed a company and employee cyber security policy. The cyber security policy is reviewed, updated as needed, and tested on a regular basis to ensure the protection of Pave and Pave clients.

Should you have any questions related to the cyber security policy please contact support@pavefinance.com.
