Learning Ecosystem

Flagship Add-on Certification Courses

Certification in 'AI for Finance'

Step into the future of work by mastering AI-driven tools and workflows that redefine productivity and decision-making. Build job-ready skills to analyze data, generate insights, and operate like a high-performance professional.

Ultimate - Skill and Professional

Fundamentals of FP&A (Certification + Project)

Learn the fundamentals of Financial Planning & Analysis while working with industry tools like Oracle Hyperion. Learn to build budgets, analyze variances, and support strategic decision-making in real business scenarios.

Ultimate - Professional

Certification in SAP Fundamentals

Build practical skills in SAP FICO to handle real-world accounting, reporting, and management accounting processes. Understand how finance functions operate within ERP systems used by MNCs and large enterprises.

Ultimate - Professional

Fundamentals of Sustainability

Develop essential knowledge of Environmental, Social, and Governance (ESG) to evaluate sustainability performance and business impact. Build a strong base for emerging roles in sustainability, consulting, and responsible investing.

Ultimate - Professional

Financial Modelling

Learn to build dynamic financial models that support business valuation, forecasting, and strategic decision-making. Develop hands-on expertise in structuring assumptions, linking financial statements, and creating insight-driven models.

Ultimate - Professional

Fundamentals of 'IFRS Reporting'

Build a strong foundation in globally accepted IFRS standards and develop the ability to interpret and prepare financial statements. Gain practical insights into real-world reporting, enabling you to work confidently with global companies, auditors, and finance teams.

IFRS
International Financial Reporting Standards

Ultimate - Skill

FinStreet

Learning Ecosystem

Essential Add-on Certifications

Excel & Advanced Excel

Build strong Excel proficiency by learning essential formulas, data handling techniques, and advanced tools like pivot tables and dashboards. Turn raw data into meaningful insights used in real business scenarios.

Ultimate - Skill

Data Analytics (Tableau)

Learn to analyze and interpret data using Tableau to uncover meaningful insights and support business decisions. Build interactive dashboards and visual stories that transform raw data into clear, actionable intelligence.

Ultimate - Skill

Data Visualization (Power BI)

Turn raw data into powerful business insights by mastering data visualization with Power BI. Develop hands-on skills in Power BI to connect, model, and visualize data effectively. Build dynamic dashboards that help businesses monitor performance and uncover key insights.

Ultimate - Skill

Robotic Process Automation (RPA) - Alteryx

Learn to automate repetitive finance workflows and streamline data processes using Alteryx, a leading RPA and analytics platform. Gain practical insights into data preparation, blending, and workflow automation that help finance teams optimise to take data-driven decisions.

Ultimate - Skill

Business Communication Masterclass

Master the art of clear, confident communication across emails, presentations, meetings, and client interactions. Gain practical insights into professional writing, executive presence, and persuasive speaking that help you stand out in any business setting.

Ultimate - Skill

Live Events - Podcast, Workshops, Networking

Through curated podcasts, webinars, and live workshops, get an early introduction to what real leadership looks like. Learn from industry voices and build foundational skills in communication, teamwork, and influence that set the stage for your growth into leadership.
