

Help More Diners Find You.

Customers often review a restaurant's menu before deciding where to eat or what to order. Dail Digital helps organize and distribute your menu information so it is easier to find across supported online platforms.

KEEP MENUS CONSISTENT

Organize menu items, descriptions, pricing, photos, and other important details in one structured source.

68%

of restaurant searches are unbranded, meaning consumers are searching for food, not your restaurant.

REACH MORE DINERS

Share your menu across supported search engines, directories, maps, and other menu-discovery platforms.

76%

of people say they are more likely to choose a restaurant that gives in-depth information in search results.

MAKE DECISIONS EASIER

Give customers helpful information about your food before they visit, call, or place an order.

54%

of consumers prefer to place their orders online, making it crucial to have an updated menu listed.

PUT YOUR MENU TO WORK

Let's make it easier for hungry customers to find and choose your restaurant.

Available destinations and update capabilities vary by platform.
