Summer Work Party's

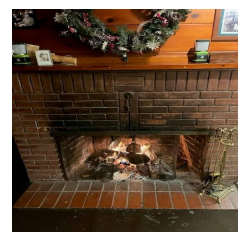

With summer here it time to start thinking about projects that need to be taken care. As everyone knows if we continue to keep up with things it does not become a big problem. In that vein I have schedule three work parties to take care of for the summer projects. The first will be on July 25, the second Aug 22, and the third Sept. 12. Below there is a list of what we hope to accomplish. Beside the scheduled work parties, there are several other small projects that can be done with the instruction and leadership of the members

leading the projects. One of these projects is the repainting & String of the duck decoys. This rather fun project that Terry Martin has undertaken. Terry is just getting started on this project so if you are interested in getting in your work party requirement and have fun doing it, please call Terry and let him fill you in on the detail and times available.
