

AY26–27 ASME Technical Presentation Competition: Rules & Prizes

The competition challenge: prepare and deliver a 12-minute technical presentation, typically about a design project, with the emphasis on oral presentation skills.

Students are encouraged to turn a senior design project, Capstone project or other research project in to a presentation.

What is the ASME Technical Presentation Competition?

An engineer, like all professionals, must possess a well-developed ability to communicate, both orally and in writing. The ASME Technical Presentation Competition is designed to emphasize the value of an ability to deliver oral presentations.

The ASME Technical Presentation Competition is sponsored by the ASME Old Guard Committee.

Prizes
