BuildSpace

CASE STUDY

EXTENSION / RENOVATION

Cricketfield Road

Extension with kitchen and bathroom remodelling
Lower Clapton, London E5

ABOUT BUILDSPACE

Building trust, one project at a time.

BuildSpace is a London-based design-and-build company, specialising in extensions, loft conversions and full home renovations — handling every project from initial design through to the final finish.

This case study takes a look inside one of our recent projects, showing the finished result in pictures.

Cricketfield Road

LOFT CONVERSIONS · EXTENSIONS · REFURBISHMENTS

01

Extension

A thoughtfully designed extension transformed the home, creating a bright and practical new area for everyday living. The work combined carefully planned insulation, generous glazing and bespoke finishes to create a comfortable space that feels naturally connected to the original property.

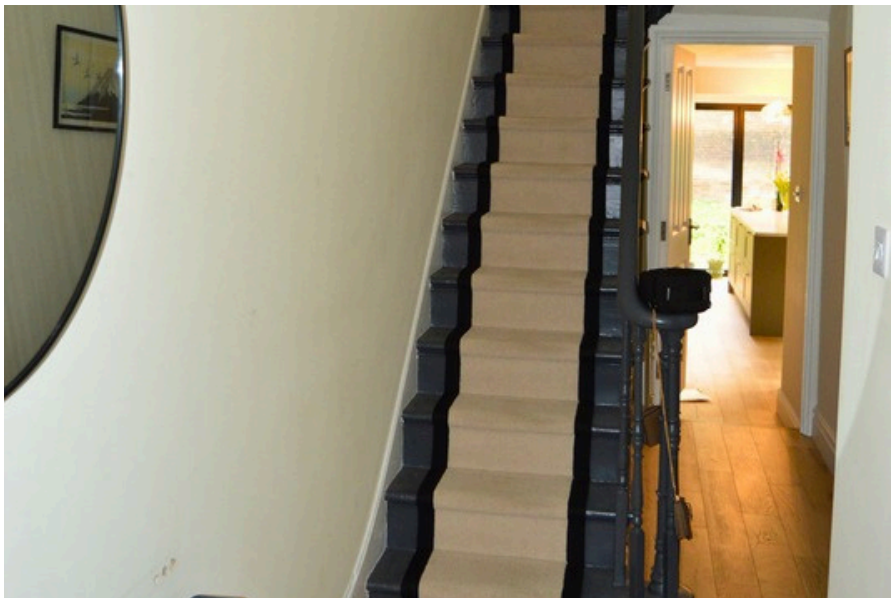

02

New kitchen, bathroom and home renovation

The renovation included a new bathroom and kitchen, transforming the home into a brighter, more practical space for everyday living. Contemporary fittings, thoughtful layouts and carefully chosen finishes bring the rooms together, creating a comfortable home that balances style, functionality and lasting quality.
