CASE STUDY

LOFT CONVERSION / RENOVATION

Hawkesfield Road

Loft conversion and home renovation
Forest Hill, London SE23

ABOUT BUILDSPACE

Building trust, one project at a time.

BuildSpace is a London-based design-and-build company, specialising in extensions, loft conversions and full home renovations — handling every project from initial design through to the final finish.

This case study takes a look inside one of our recent projects, showing the finished result in pictures.

Hawkesfield Road

LOFT CONVERSIONS · EXTENSIONS · REFURBISHMENTS

01

Loft conversion

A thoughtfully designed loft conversion transformed the unused roof space into a bright, practical new area for the home. The work included carefully planned insulation, roof windows and bespoke finishes to create a comfortable room that feels connected to the rest of the property.

02

New bathroom within the loft conversion

A new bathroom was created within the loft conversion, making the additional living space practical and self-contained. The room combines contemporary fittings, clean finishes and carefully planned lighting to create a bright, comfortable space that complements the rest of the home.
