BuildSpace

CASE STUDY

EXTENSION / RENOVATION

Marsala Road

Extension and home remodelling
Ladywell, London SE13

ABOUT BUILDSPACE

Building trust, one project at a time.

BuildSpace is a London-based design-and-build company, specialising in extensions, loft conversions and full home renovations — handling every project from initial design through to the final finish.

This case study takes a look inside one of our recent projects, showing the finished result in pictures.

Marsala Road

LOFT CONVERSIONS · EXTENSIONS · REFURBISHMENTS

01

Extension

A new extension transformed the home, creating a bright and practical space for everyday living. Carefully planned insulation, generous glazing and bespoke finishes ensure the new room feels comfortable, welcoming and naturally connected to the original property.

02

New kitchen within the extension

A new kitchen was created within the extension, providing a bright and spacious setting for cooking, dining and everyday family life. Contemporary cabinetry, generous work surfaces and carefully considered lighting combine to create a practical, welcoming space that flows naturally into the rest of the home.
