CASE STUDY

LOFT CONVERSION / EXTENSION / RENOVATION

Noyna Road

Loft conversion, extension and home remodelling
Tooting Bec, London SW17

ABOUT BUILDSPACE

Building trust, one project at a time.

BuildSpace is a London-based design-and-build company, specialising in extensions, loft conversions and full home renovations — handling every project from initial design through to the final finish.

This case study takes a look inside one of our recent projects, showing the finished result in pictures.

Noyna Road

LOFT CONVERSIONS · EXTENSIONS · REFURBISHMENTS

01

Extension

A new extension transformed the home, creating a bright and practical space for everyday living. Carefully planned insulation, generous glazing and bespoke finishes ensure the new room feels comfortable, welcoming and naturally connected to the original property.

02

Extension, kitchen and home remodelling

A new kitchen was created within the extension, providing a bright and spacious setting for cooking, dining and everyday family life as part of the wider home remodelling. The entire house was thoughtfully updated with a carefully considered layout, contemporary finishes and cohesive detailing, creating a practical and welcoming home that flows naturally from the new extension through to the original spaces.
