CASE STUDY

LOFT CONVERSION / RENOVATION

Choumert Road

Loft conversion and home renovation
Peckham, London SE15

ABOUT BUILDSPACE

Building trust, one project at a time.

BuildSpace is a London-based design-and-build company, specialising in extensions, loft conversions and full home renovations — handling every project from initial design through to the final finish.

This case study takes a look inside one of our recent projects, showing the finished result in pictures.

Choumert Road

LOFT CONVERSIONS · EXTENSIONS · REFURBISHMENTS

01

Loft conversion

A thoughtfully designed loft conversion transformed the unused roof space into a bright, practical new area for the home. The work included carefully planned insulation, roof windows and bespoke finishes to create a comfortable room that feels connected to the rest of the property.

02

New kitchen and home renovation

A new kitchen was added during the home renovation, transforming the living area into a functional and self-contained space. Combining contemporary fittings, sleek finishes, and thoughtfully planned lighting, the room offers a bright, inviting atmosphere that seamlessly connects with the rest of the home.
