

The AI Engine for SAP Consultants

Accelerate every SAP transformation
and deliver an AI-native system architecture

A platform built for modern SAP transformation

Working alongside your SAP delivery team, Qorelo turns customer AS-IS and TO-BE requirements into clean Cloud design, converting custom requirements into SAP best practices processes. You deliver faster and more AI-natively, building a better SAP architecture for the customer.

Deliver faster

Clean-core design in a fraction of the time, on every engagement.

System of Records

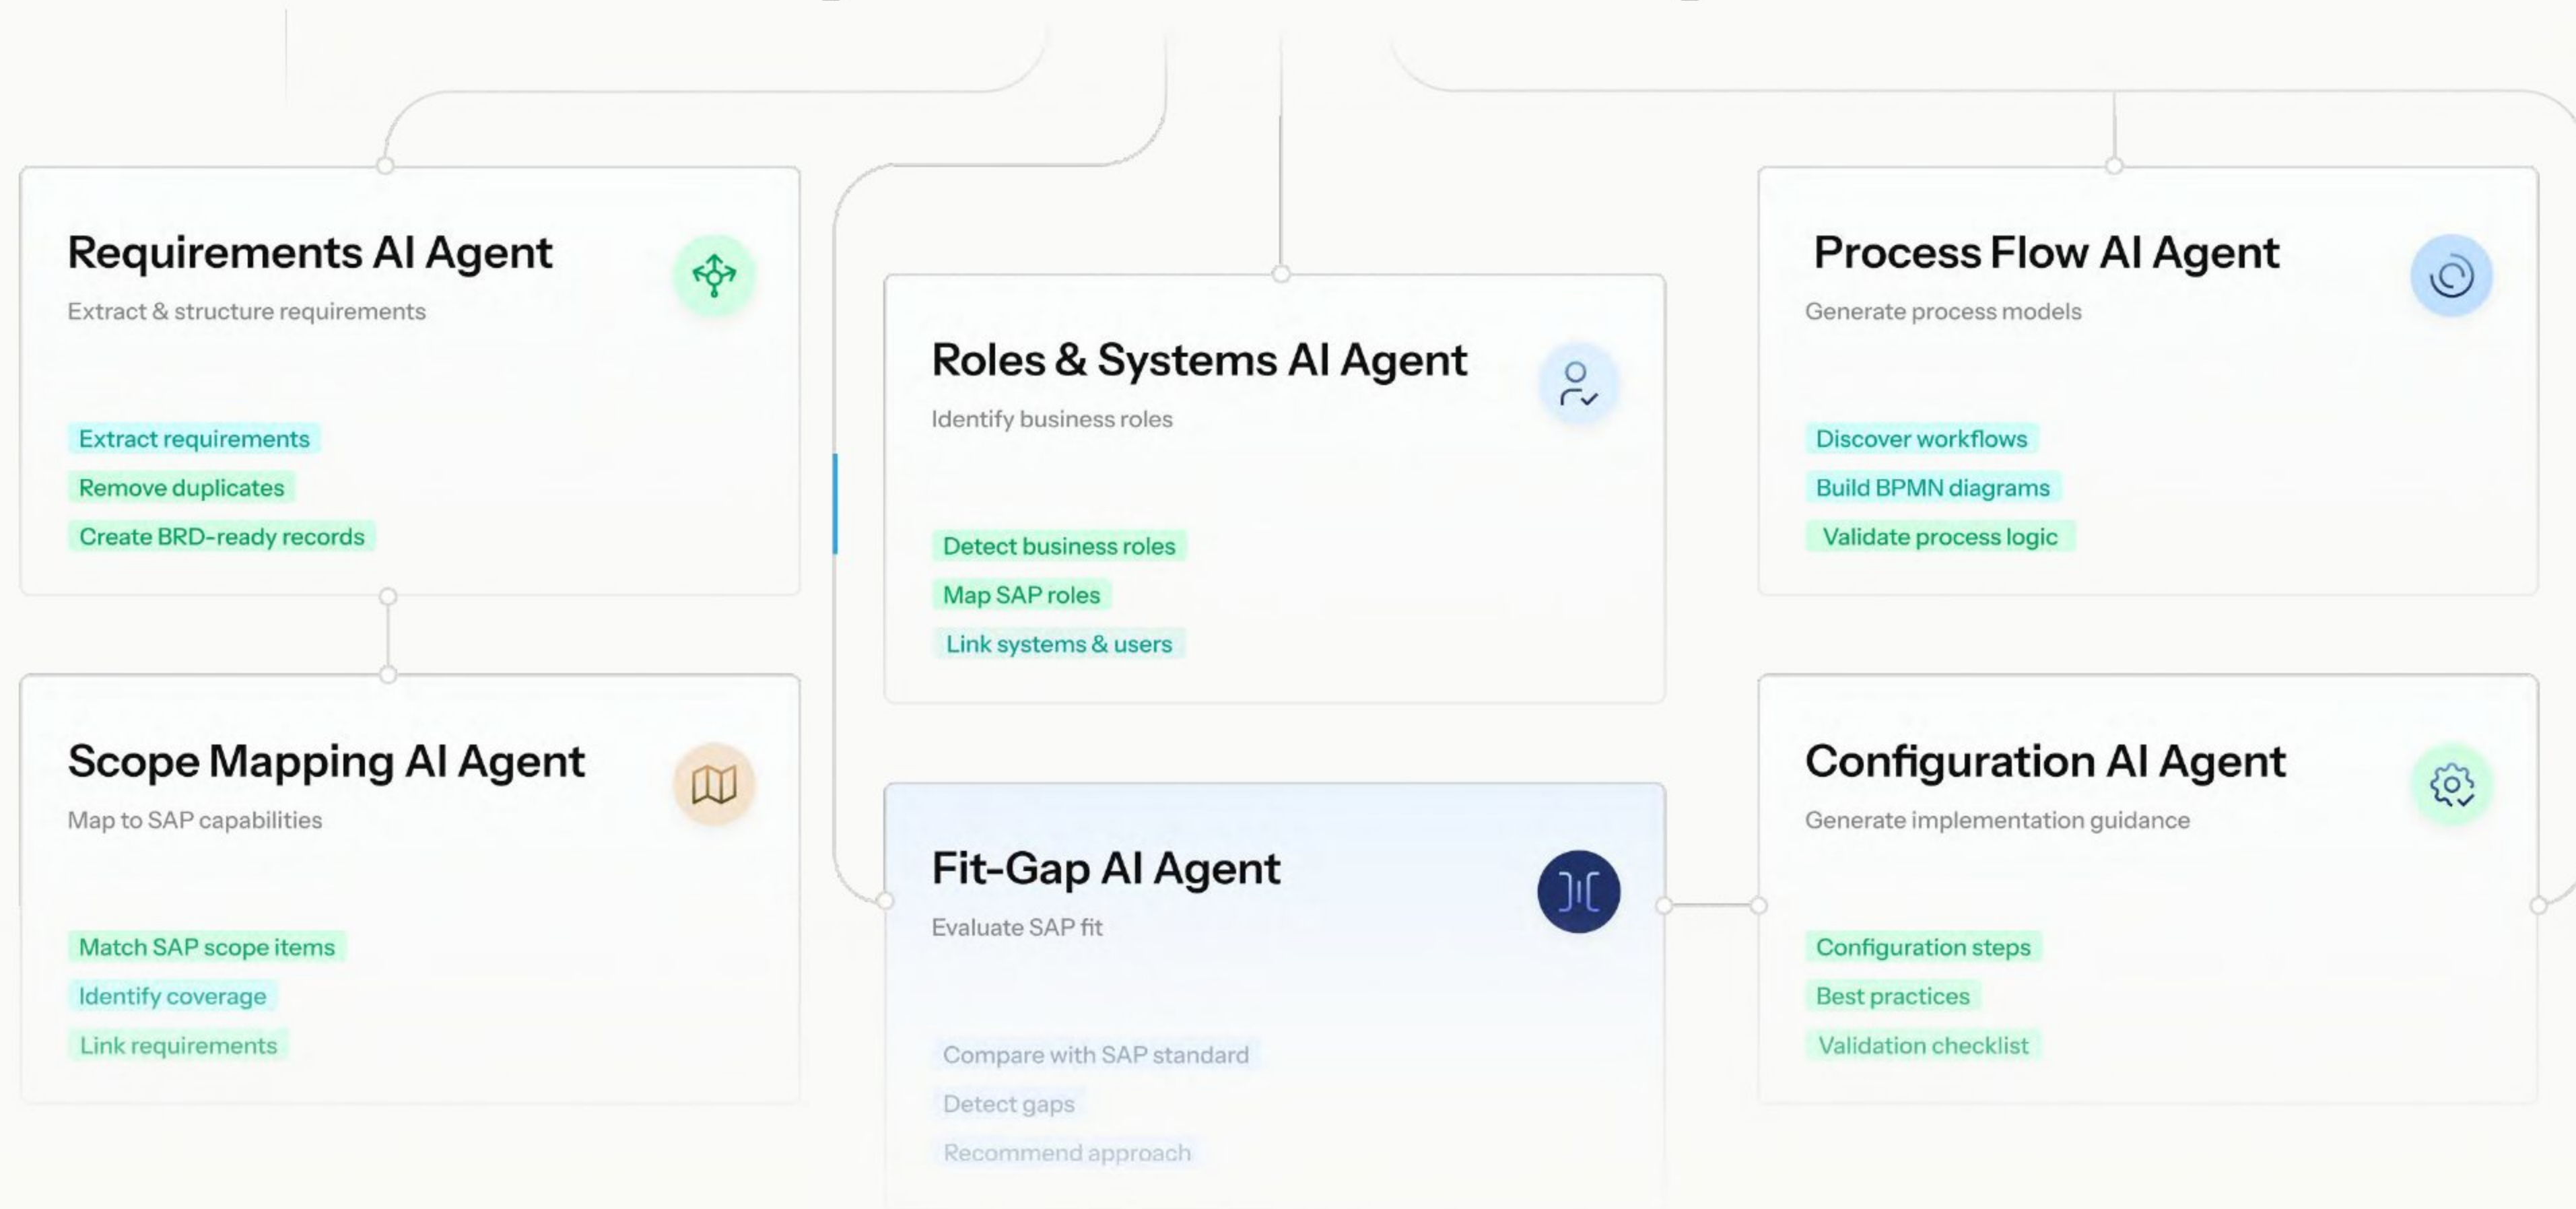

Every requirement, decision, and fit-gap call captured in one place, traceable from design through realize

Own the relationship

Your method, your brand, your client. Qorelo runs in the background.

The Qorelo Chain that accelerates your delivery

Qorelo is an AI delivery system for enterprise SAP teams. Automate the manual work behind fit-gap analysis, scope mapping, documentation, configuration guidance, and continuous modernisation to build an agentic ERP.

30.7%

31% less manual work across documents, mapping, and configuration.

45.3%

45% faster from requirements to SAP-ready solutions.

47.4%

47% lower costs by automating repetitive delivery tasks.

What You Get When Working with Qorelo

An AI that learns how your organization works

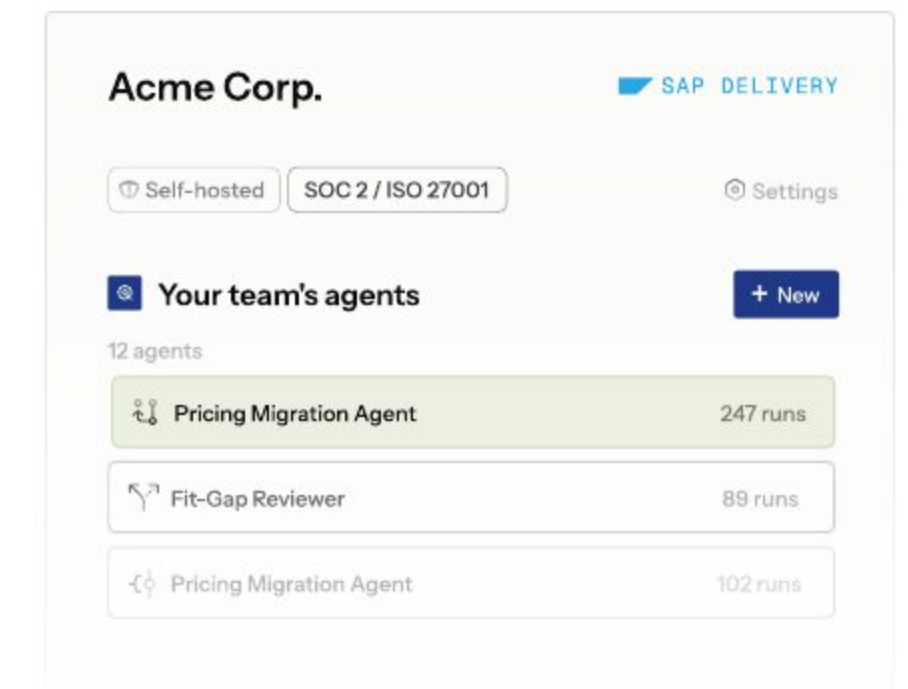

Interact with Qorelo in natural language and explain how your organization operates: its standards, templates, terminology, and preferences. Over time, Qorelo adapts and consistently delivers outputs aligned to how you want SAP work to be done.

/01

Interactive AI Colleague

Every result comes with clear sources and traceability. You can challenge outputs, give feedback, and steer decisions. Qorelo is giving options, your making the decisions

/02

Workshops & Organizational Adoption

We support onboarding through guided workshops and enablement for direct adoption within the whole team

/03

Locally or SaaS hosted solution

The Platform can either run locally on your own infrastructure or on our SaaS solution whatever your client or you prefer with any LLM provider

/04

APIs & Enterprise Integrations

Qorelo integrates with SAP tools and external systems via APIs, enabling seamless data flow and allowing the solution to fit into your existing landscape, not replacing it.
