FPCC

FEDERAL PERFORMANCE CONTRACTING COALITION

THE FPCC IS A NATIONAL COALITION OF LEADING ENERGY SERVICE COMPANIES (ESCOs) ADVOCATING FOR INCREASED FEDERAL USE OF ENERGY SAVINGS PERFORMANCE CONTRACTS.

FPCC members have designed and delivered **OVER 90 PERCENT** of Federal ESPCs.

OVER **454** DOE IDIQ & ENABLE projects awarded SINCE 1998

MORE THAN **$19.3 BILLION** in cumulative energy cost savings

Every state has **BENEFITED FROM AN ESPC**

OVER **$8.9 BILLION** invested in energy efficiency and renewable energy improvements

OVER **633 TRILLION** BTU in life cycle energy savings

Average length of a contract **16.5 YEARS**

ESPCs have created **63,000 JOB YEARS**

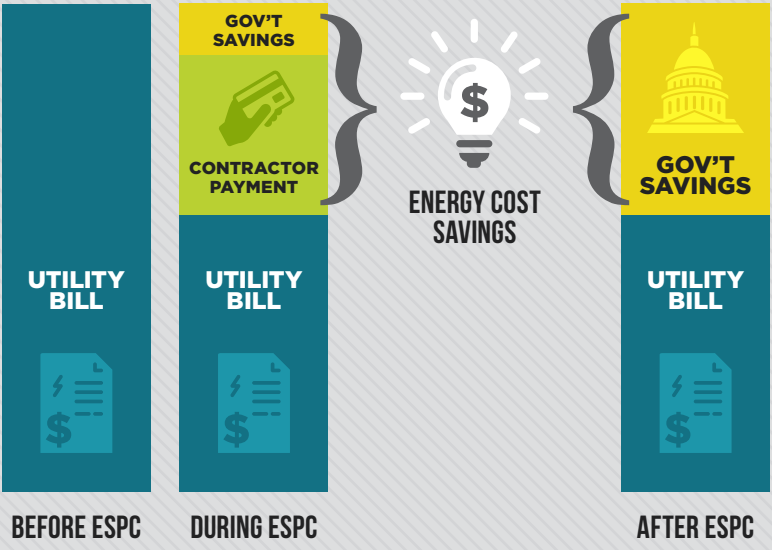

FPCC MEMBERS

AMERESCO | CEG SOLUTIONS | CONSTELLATION | ENERGY SYSTEMS GROUP
NORESCO | SCHNEIDER ELECTRIC | SOUTHLAND INDUSTRIES | TRANE

How do ESPCs work?

The ESPC contractor designs and installs solutions and equipment which together reduce the energy consumption of a facility. These energy savings are guaranteed to occur by the contractor.

The savings on the utility bills which occur as a result of implementing the ESPC are used to pay for the services and equipment installed. These payments occur over a stipulated period of time until the contract has been repaid.

SAVING ENERGY. SAVING MONEY. CREATING JOBS.
