Here is our another concern:

Aaron Jeans Ltd. established January 2017 with a synopsis to establish a best denim garment factory, where buyers will feel real comfort to use the facility for their products. The company is having well experienced and highly professional staffs and workforce, who are the main assets of Aaron. We respect ethical and social value of workforce and determined to provide better possible work environment, welfare and safety. We want to be trust worthy to our buyers for quality, commitment & social ethics.
