BAC MW ADC BRICKLAYERS & ALLIED CRAFTWORKERS

Organizing the Western States

Spring 2026

MOUNTAIN WEST ADC
BRICKLAYERS & ALLIED CRAFTWORKERS

NEVADA | UTAH | COLORADO | ARIZONA | WYOMING | NEW MEXICO

Building the Future

Brothers and sisters, I hope this message finds you well. Please take a moment to confirm that you are on the out-of-work list, and that your contact information and dues are up to date. This will prevent delays during dispatching.

With work expectations increasing soon, it is important to make sure everything is in order, so you are ready to get back on the job.

I would like to congratulate Jerry Godek (CO/WY), Jacob Gonzalez (AZ/NM), and Zachary Merril (UT) on their recent election wins. I also want to thank everyone for their continued trust and for re-electing me to another term as Director of MW ADC.

The Western States Apprenticeship Contest will be held on June 6th in Missoula Montana. Our region will be well represented, by two bricklayers from Colorado, one bricklayer from Arizona, one tile setter from Utah, and a Las Vegas delegation comprised of two bricklayers, two PCC, two Tile Setters, and two Marble Masons Best of luck to all participants representing MWADC! And the entire western region.

The JATC and the Council are constantly evolving their curriculum to include modern technologies and safety protocols. Whether it's the intricate artistry of a stone mason or the technical precision required for PCC restoration, the apprenticeship program ensures that every graduate is an expert in their craft.

By investing in people first, the BAC MW ADC is ensuring that the masonry industry remains a pillar of American craftsmanship and a gateway to the middle class. For those ready to work, the door to a secure, respected, and fully covered career is wide open.

I would also like to let all members know we are looking to hire another field rep soon and we are looking for someone that is bilingual with effective communication skills and well-liked. Their job duties would consist of dealing with current members. You will be an organizer going to non-UNION jobs to find possible new members.

As temperatures rise in Las Vegas, please remember to stay hydrated and take the necessary precautions to work safely. We are expecting a busy period ahead, so be prepared and stay safe.

Fraternally,

Richard Crawford | Director
BAC MW ADC | 702-210-1040
Email: rcrawford@mwbac.org

Construyendo el Futuro

Hermanos y hermanas, Espero que este mensaje los encuentre bien. Por favor, tómense un momento para confirmar que figuran en la lista de desempleados y que su información de contacto y el pago de sus cuotas están al día. Esto evitará retrasos durante el proceso de asignación de trabajos.

Dado que pronto aumentarán las expectativas de trabajo, es importante asegurarse de que todo esté en orden para que estén listos para reincorporarse a sus labores.

Me gustaría felicitar a Jerry Godek (CO/WY), Jacob Gonzalez (AZ/NM) y Zachary Merril (UT) por sus recientes victorias electorales. También quiero agradecerles a todos por su continua confianza y por haberme reelegido para otro mandato como Director del MW ADC.

El Concurso de Aprendices de los Estados del Oeste se celebrará el 6 de junio en Missoula, Montana. Nuestra región estará bien representada por dos albañiles de Colorado, un albañil de Arizona, un colocador de azulejos de Utah y una delegación de Las Vegas compuesta por dos albañiles, dos especialistas en PCC, dos colocadores de azulejos y dos marmolistas. ¡La mejor de las suertes a todos los participantes que representan al MWADC! Y a toda la región occidental.

El JATC y el Consejo están evolucionando constantemente su plan de estudios para incluir tecnologías modernas y protocolos de seguridad. Ya sea la intrincada maestría artística de un cantero o la precisión técnica requerida para la restauración de PCC, el programa de aprendizaje garantiza que cada graduado sea un experto en su oficio.

Al invertir primero en las personas, el BAC MW ADC asegura que la industria de la mampostería siga siendo un pilar de la artesanía estadounidense y una puerta de entrada a la clase media. Para aquellos que están listos para trabajar, la puerta hacia una carrera segura, respetada y con cobertura total está abierta de par en par.

También me gustaría informar a todos los miembros que pronto buscaremos contratar a otro representante de campo; buscamos a alguien bilingüe, con habilidades de comunicación efectivas y que goce de buena aceptación entre la gente. Sus funciones laborales consistirían en tratar con los miembros actuales. Actuará como organizador, visitando obras no sindicalizadas para identificar a posibles nuevos miembros.

A medida que aumentan las temperaturas en Las Vegas, por favor recuerden mantenerse hidratados y tomar las precauciones necesarias para trabajar con seguridad. Anticipamos un periodo de mucha actividad por delante, así que prepárense y cuídense mucho.

Fraternalmente,

Richard Crawford | Director
BAC MW ADC | 702-210-1040

Brothers and Sisters

As we head into another busy summer season here in Nevada, there's a lot to be proud of and even more to look forward to. Our trade continues to stand strong because of the hard work, skill, and solidarity of every union bricklayer who shows up each day ready to build our communities the right way — with union labor.

This summer is shaping up to bring exciting opportunities for our members. We are seeing strong demand for skilled union craftsmen across commercial, industrial, and public projects throughout Nevada. These projects mean more man-hours, more opportunities for apprentices and journeymen alike, and continued strength for our union families. The work ahead reflects the reputation our members have earned through professionalism, safety, and craftsmanship.

But as important as the work itself is, we also have another responsibility that directly impacts on our future: **making our voices heard at the ballot box.**

Every election affects working people. Decisions made by elected officials impact prevailing wages, apprenticeship programs, jobsite safety standards, pensions, healthcare, infrastructure funding, and the future of organized labor itself. When union members vote, we help protect the rights and opportunities generations before us fought to secure.

If you are not yet registered to vote, now is the time. Registration is simple, and participating in elections is one of the strongest ways we can stand together outside the jobsite. Encourage your family members, coworkers, and fellow union brothers and sisters to register and vote as well. A strong turnout from union households sends a clear message that working people in Nevada are paying attention and demanding leadership that supports good union jobs and fair wages.

Just as importantly, we encourage every member to stay engaged to your local union. Attend meetings, participate in events, support apprenticeship and training programs, and stay informed on issues affecting our trade. A strong union depends on active membership. The more involved we are, the stronger our collective voice becomes — both on the job and in our communities.

This union was built through solidarity, participation, and commitment to one another. As we move into a promising summer season, let's continue building not only great projects, but also a stronger future for all union members and our families.

Stay safe, stay union strong, and we look forward to seeing everyone out on the jobsites and at union events this summer.

Fraternally,

Anthony Ivester
Secretary-Treasurer

Dear Brothers and Sisters

It is an honor to communicate with you through this medium. On this occasion, I want to speak to you about the importance of actively participating in the Midterm Elections on November 3, 2026. These elections determine the composition of the United States Congress. They have a direct impact on the laws and policies that affect our working conditions, wages, and benefits. We cannot afford to stand on the sidelines.

THESE ARE SOME OF THE REASONS WHY WE MUST VOTE:

1. **DEFENSE OF LABOR RIGHTS**
   The elections will determine who controls Congress, which directly influences labor laws, employment policies, workplace safety, and other fundamental issues for unionized workers. With a favorable Congress, we can advance reforms that benefit us.
2. **LABOR LEGISLATION AND REGULATIONS**
   Elected representatives have the power to enact and modify essential labor laws: the federal minimum wage, protection of union rights, workplace safety regulations, and family and medical leave policies. In 2026, several key proposals are being debated in Congress that could strengthen or weaken these rights.
3. **PROTECTION OF BENEFITS AND PENSIONS**
   Decisions made at the federal level directly affect health benefits, pensions, and other crucial provisions for union workers and their families. Choosing the right candidates in these midterm elections protects the future of our families.
4. **IMPACT ON ECONOMIC POLICIES**
   Federal economic policies, unemployment management, investment in infrastructure, and international trade all have a direct impact on job stability and employment opportunities. In 2026, with the economy constantly changing, it is more important than ever to have representatives who prioritize workers.
5. **REPRESENTATION AND COLLECTIVE VOICE**
   By voting in these midterm elections, union members help strengthen the collective voice of workers and ensure that our interests are taken into account in political and legislative decisions at the national level. United, our strength is impossible to ignore.

One of the most exciting developments of these midterms is that members from various unions are running for positions. Fellow workers who understand firsthand the challenges we face in our workplaces are stepping forward to represent us directly in government.

When you cast your vote on November 3, we ask that you consider these candidates who come from union ranks.

REGISTER AND VOTE!

The Midterm Elections will take place on November 3, 2026. Only those who are properly registered will be able to vote. Check your registration today!

Your voice is in your vote, don't let others speak for you.

I firmly believe that safety and health are fundamental in any workplace and activity. It is our collective responsibility to comply with OSHA rules and regulations to prevent accidents and illnesses in our workplaces. A healthy and safe worker is a stronger worker. Take care of yourselves and look out for your fellow workers.

Remember to pay your monthly dues. Your contribution keeps our union alive and the fight for our rights.

Sincerely,

Eduardo Zavala
Field Representative
BAC MW ADC | 702-580-6878
Email: ezavala@mwbac.org

Queridos Hermanos y Hermanas

Es un honor para mí comunicarme con ustedes a través de este medio. En esta ocasión, quiero hablarles sobre la importancia de participar activamente en las Elecciones Intermedias del 3 de noviembre de 2026. Las elecciones intermedias determinan la composición del Congreso de los Estados Unidos. Tienen un impacto directo en las leyes y políticas que afectan nuestras condiciones de trabajo, salarios y beneficios. No podemos permitirnos quedarnos al margen.

ESTAS SON UNAS DE LAS RAZONES POR QUE DEBEMOS VOTAR:

1. **DEFENSA DE LOS DERECHOS LABORALES**
   Las elecciones determinarán quién controla el Congreso, lo cual influye directamente en las leyes laborales, políticas de empleo, seguridad en el trabajo y otros temas fundamentales para los trabajadores sindicalizados. Con un congreso favorable, podemos avanzar en reformas que nos beneficien.
2. **LEGISLACIÓN LABORAL Y REGULACIONES**
   Los representantes electos tienen el poder para promulgar y modificar leyes laborales esenciales: el salario mínimo federal, la protección de los derechos sindicales, las normativas de seguridad en el trabajo, y las políticas de permisos familiares y ausencias médicas. En 2026, se debaten varias propuestas claves en el Congreso que podrían fortalecer o debilitar estos derechos.
3. **PROTECCIÓN DE BENEFICIOS Y PENSIONES**
   Las decisiones tomadas a nivel federal afectan directamente los beneficios de salud, las pensiones y otras prestaciones cruciales para los trabajadores sindicalizados y sus familias. Elegir a los candidatos correctos en estas elecciones intermedias proteje el futuro de nuestras familias.
4. **IMPACTO EN POLÍTICAS ECONÓMICAS**
   Las políticas económicas federales, el manejo del desempleo, la inversión en infraestructura y el comercio internacional, tienen un impacto directo en la estabilidad laboral y en las oportunidades de empleo. En este año 2026, con la economía en constante cambio, es más importante que nunca tener representantes que le den prioridad a los trabajadores.
5. **REPRESENTACIÓN Y VOZ COLECTIVA**
   Al votar en estas elecciones intermedias, los miembros del sindicato contribuyen a fortalecer la voz colectiva de los trabajadores y a asegurar que nuestros intereses sean tomados en cuenta en las decisiones políticas y legislativas a nivel nacional. Unidos, nuestra fuerza electoral es imposible de ignorar.

Una de las noticias más emocionantes de estas elecciones es que miembros de varios sindicatos están postulándose para cargos en el congreso y estatales. Compañeros trabajadores que conocen de primera mano los desafíos que enfrentamos en nuestros lugares de trabajo están dando un paso al frente para representarnos directamente en el gobierno.

Al momento de emitir su voto el 3 de noviembre, les pedimos que tengan muy en cuenta a estos candidatos que vienen de las filas sindicales.

¡REGÍSTRATE Y VOTA!

Las elecciones intermedias se llevarán a cabo el 3 de noviembre de 2026. Solo podrán votar quienes estén debidamente registrados. ¡Verifica que estés registrado hoy mismo!

En tu voto está tu voz, no dejes que otros hablen por ti.

Creo firmemente que la seguridad y la salud son fundamentales en cualquier lugar y actividad laboral. Es nuestra obligación colectiva cumplir con los reglamentos y regulaciones de OSHA para prevenir accidentes y enfermedades en nuestros lugares de trabajo. Cuídense y cuiden a sus compañeros.

Recuerden pagar sus cuotas mensuales. Su contribución mantiene vivo nuestro sindicato y nuestra lucha.

En Solidaridad,

Eduardo Zavala
Organizador y Representante Sindical
BAC MW ADC | 702-580-6878

Dear Union Members

As we approach the upcoming midterm elections, it's important to recognize what's at stake—not just nationally, but in our workplaces, our communities, and our daily lives.

Midterm elections often receive less attention than presidential races, but their impact can be just as significant. The officials elected during these cycles help shape policies that directly affect wages, workplace safety, healthcare access, retirement security, and the fundamental right to organize.

WHY THIS MATTERS FOR UNION MEMBERS

Union members have a direct stake in the decisions made by elected officials. Legislators at both the state and federal levels influence:

- Labor Laws & Collective Bargaining Rights: Policies that protect (or weaken) our ability to negotiate fair contracts.
- Workplace Safety Standards: Regulations that ensure safe working conditions.
- Wages & Benefits: Minimum wage laws, overtime rules and protections for benefits like pensions and healthcare.
- Public Services & Infrastructure: Investments that create union jobs and strengthen our communities.

YOUR VOICE IS YOUR POWER

Voting is one of the most effective ways to advocate for your rights and the future of the labor movement. When union members show up at the polls, we send a clear message about the importance of fair treatment, dignity at work, and economic justice.

WHAT YOU CAN DO

- Make a plan to vote early or on Election Day
- Encourage your coworkers, friends, and family to participate
- Stay informed about candidates and their positions on labor issues

STRONGER TOGETHER

Our strength has always come from solidarity. Participating in the midterm elections is another way we stand together—not just on the job, but in shaping the policies that define our future.

Let's make our voices heard.

In solidarity,

Jacob González Jr
Field Representative

BAC Local 7 CO/WY

It's been very busy at BAC Local 7 CO/WY!!

We had a great '80s-themed Christmas party in Pueblo, Colorado, and a big thank you goes out to Doug Stout, owner of DS Masonry, for letting us use his space on the Riverwalk. We also had two apprentices, Kingston Croy and Kalab Harkins, represent BAC Local 7 well while competing at the World of Concrete in the first-year MCAA contest in Las Vegas.

Our Local JATC Contest was a great success. Aside from the normal brick project, we added the Fastest Trowel Contest and the Jr. Brick Contest, where competitors saw who could lay the most block or brick in 20 minutes. The winners for the Brick Project were Kalab Harkins (1st place) and Kingston Croy (2nd place). For the Fastest Trowel, 1st place went to Brett Richards, and the Jr. Brick contest winner was Jordan Allen. I would also like to send out a big congratulations and thank you to Tri-Star Masonry for being such a great Union Contractor for 50 years!

Work in Colorado is starting to pick up after a slow start. We are currently working at Cañon City High School and the Board of Water Works near Pueblo, while finishing up American Furniture Warehouse and Peterson Space Force Base in Colorado Springs. In the Denver metro area, contractors are looking at the new Denver Women's Soccer Stadium. We are also working with the Community and Denver City Council on a Community Benefits Agreement, which would include PLA language for the upcoming Broncos Stadium.

Work in Wyoming remains steady as we start three new projects: the Douglas Humane Society, the Glenrock Fire Station addition, and a pump station in Gillette. We just finished up the Cheyenne Frontier Days Indian Village and are currently starting several residential projects. Looking ahead, our annual picnic will be held on August 1st at Fox Run Regional Park, and our Labor Day Picnic will take place on September 7th in Cheyenne, featuring a Chili Cook-Off. Please bring your families to both events. Thank you for all of your hard work, and another thanks to the volunteers who help make these events happen.

Fraternally Yours,

Jerry Gondek

Greetings to All

The 2026 Apprentice Contest was a tremendous success, showcasing the dedication, skill, and professionalism of our apprentices. This year's competition brought together talented individuals who demonstrated not only technical ability, but also the commitment and work ethic that define the future of our trade.

We would like to extend a sincere thank you to everyone who made this event possible. From the Instructors and judges to the volunteers who worked behind the scenes, your efforts ensured a smooth and successful contest. A special thank you goes out to our sponsors, whose continued support provides opportunities like this for apprentices to grow, compete, and excel. Your investment in training and development is an investment in the future of our industry.

We also want to recognize all the apprentices who participated. Competing at this level takes courage, preparation, and determination, and each contestant should be proud of their performance and the professionalism they displayed throughout the event.

Congratulations to our 1st and 2nd place winners, whose outstanding performances set them apart in a field of strong competitors. These individuals will go on to represent us at the Western States Apprentice Contest, taking place in Missoula, Montana on June 6th. We are confident they will continue to demonstrate the high standards and excellence that define our program.

We would also like to extend a special congratulations to our BAC Mountain West ADC Tile Apprentice David Green for being recognized by the Nevada Department of Labor as one of Nevada's top apprentices this year. This is an outstanding achievement and a reflection of the hard work and dedication that define excellence in our trade.

As we move into the summer season, please note that Summer Break 2026 will begin on June 3rd, with classes resuming on September 2nd. Apprentices are welcome and encouraged to continue training during the summer break to further develop their skills and stay engaged.

Looking ahead, several important training opportunities will begin in the month of May, including forklift certification, scissor lift training, laser training, and First Aid/CPR/AED certification. All training classes will be scheduled, with dates posted at the training center and shared across our social media platforms.

In addition, we are excited to host a series of summer workshops featuring leading industry partners, including Uzin, Schluter, Noble Company, Laticrete and Construction Robotics. These workshops will provide valuable hands-on learning experiences and insights into the latest products, techniques, and innovations in the field.

Thank you again to everyone who contributed to making the 2026 Apprentice Contest a success. We look forward to a productive summer and continued growth for all our apprentices.

In Solidarity,

Chris Reyos
JATC Apprentice Coordinator

Brothers And Sisters of the MWADC

Local 13 Reno has been busy recruiting from our local schools to help with manpower requests. Students from the Northern Nevada Literacy Council recently toured the hall and received hands-on tile training. Additionally, two students from ACE High School trained with me for SkillsUSA and took first and second place in the local competition at the Reno Livestock Events Center—great job, Jamieson and Blake! All of these students are excellent prospects for future apprenticeships with Local 13. We also participated in the Debt-Free Job Fair, which explores pathways for local students to join a trade union and enroll in community college to earn a free Associate degree by the end of their apprenticeship. We had a large group of students who are interested in a future with MWADC Local 13. Furthermore, the Sparks City Council read a proclamation for Apprenticeship Week, acknowledging all the apprentices and training centers for everything they do to better the lives and skills of our members.

Work is picking up in Northern Nevada! Superior Tile will be starting at the Tahoe Hyatt Regency in June. NCTS is currently working at the UNR Health Lab, remodeling the Laborers 169 Hall, and remodeling the Teamsters Hall; they also have work coming up in early fall at the Cal-Neva Resort in Tahoe. Hammond Caulking is working at the EdgeCore Data Center in USA Parkway and at Vaughn Middle School, with the second phase of EdgeCore coming in early fall. Additionally, J.T. Thorpe, Knight Materials, Guy Nielsen, Southwest Refractory, and Western have all been working in and around the Reno-Tahoe area.

May 1st to May 31st is Mental Health Month. Please be kind to one another; say hello and smile! Check in on a friend you haven't talked to in a while, as these little acts of kindness could make the difference for someone who really needs it. The International Union of Bricklayers and Allied Craftworkers offers the Member Assistance Program (MAP), which provides confidential telephone crisis intervention, referrals, and information to BAC members in the U.S. and Canada. You can call the toll-free line at 1-833-MAP-TALK (1-833-627-8255).

Fraternally Yours,

Charlie Zemp

A Note from Local 3 AZ/NM

Greetings from the Sunshine State! Bricklaying is a trade people often overlook until they see the finished walls of a school or a beautiful tile walkway. It is detailed, hands-on work that remains vital even in our high-tech world. While tools and materials have improved, the core of the craft still relies on skill, patience, and the pride of building something level, strong, and built to last.

Even with modern building materials, brick and masonry remain top choices because they are durable, fire-resistant, and possess a classic look that never goes out of style. From historic landmarks to brand-new neighborhoods, masonry connects our past with our present. Furthermore, brick is an environmentally friendly choice; it's made from natural materials and helps buildings stay energy-efficient, ensuring the trade has a firm place in the future of sustainable construction.

Right now, the industry faces a significant challenge: there is plenty of work but not enough people to do it. As experienced masons retire, fewer young people are stepping in, largely because the modern focus on college often leaves trades out of the conversation.

This is a major missed opportunity. Bricklaying offers a rewarding career with several key benefits: Financial Stability: It pays well and offers steady work without the burden of student debt. Paid Training: Through apprenticeships, you earn a living while learning the craft. Active Lifestyle: It's an ideal path for those who want to work with their hands rather than sitting behind a desk.

The trade is evolving; new technology and machinery are being developed to assist masons, though they can never replace the judgment and experience of a human worker. Ultimately, masonry is about more than just a paycheck. It's about building a tangible legacy. In a world dominated by screens, there is a unique satisfaction in stepping back at the end of the day to see a physical structure that will benefit the community for decades to come.

Reymundo Hernandez
Field Representative
Local 03 Arizona | 602-549-7830

Hello Brothers and Sisters

I hope this newsletter finds you all in great health and great spirits! I'd first like to congratulate all the apprentices that competed and placed in our local apprenticeship contest as well as our 2nd annual fastest trowel competitors and winners! Great job and keep up the great work!

Union organizing is workers coming together so they can have a stronger voice on the job. When people stand together, they have a better chance of winning fair pay, good benefits, safer working conditions, and the respect they deserve at work. Instead of dealing with problems alone, workers can support each other and speak as one group. Unions also help create clear rules in the workplace, protect workers' rights, and make sure everyone is treated fairly. Strong unions have helped improve wages and working conditions for generations of working families.

Further education is just as important because it helps people grow and create better opportunities for themselves and their families. Learning new skills, taking classes, or gaining more knowledge can lead to better jobs, promotions, and more confidence in everyday life. Education also helps workers understand their rights, communicate better, and become stronger leaders in the workplace and community. When workers stay involved in their union and continue learning, they become more prepared to face challenges and help others succeed. Together, unionism and education build a stronger future, more security, and a better quality of life for working people.

"THE POWER OF THE UNION IS THE POWER OF THE PEOPLE." ORGANIZE!

In solidarity,

Robert Fuentes | Organizer

From the Administrative Staff of BAC MW ADC

Helen Taylor and Jessica Zavala

Dear Members, we hope this newsletter finds you well and thriving. At BAC MW ADC, we are committed to providing the best support and assistance to our members. Our dedicated bilingual administrative staff is ready to assist you in both English and Spanish. Whether you need help understanding union benefits, filling out forms, or have any other questions, our staff is here to provide clear and effective communication to make your experience as smooth as possible.

WE'RE HERE TO ASSIST YOU WITH:

- Answering your questions and providing information about your union benefits.
- Assisting with the completion of necessary forms and documents.
- Offering guidance on job placements and opportunities.
- Ensuring that you stay informed about important union events and updates.

STAY CONNECTED

We encourage you to stay connected with BAC MW ADC by visiting our website and attending Local Chapter meetings to stay informed about the latest news and developments within our different unions. Thank you for being a valued member of BAC MW ADC.

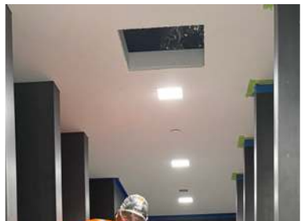

In solidarity,

BAC MW ADC Administrative Team

Hello, My Brothers and Sisters

I am proud to be a Union member. As Union members, it is important to remember that we can be stable through all the world events going on right now, we, as union members have an advantage in providing for ourselves and families over the non-union. As a Union member, I am grateful that my Leaders, who are working day after day, hard to secure work for my industry's needs. Leaders who go out of their way, introduce themselves to contractors and businessmen and forge a working relationship to plant future work opportunities that keep our benefits going. However, our leaders can only go so far without membership involvement. The members are the voice and body of the Union. It is our responsibility as members to be involved and tell our leaders what we want. It is our Union. Voices grow the union and silence dissolves. Our involvement with our leaders helps secure our ability to provide for our families no matter how small a contribution you may think it may bring. Members can help by going and participating in Chapter meetings, asking about getting on a committee, or asking questions about your benefits. Telling your leadership about potential workers, projects, or companies.

Every time I have conversation with non-union workers, they have no idea what they are missing out on. Many, if not all, don't have provided apprenticeship, vacation, retirement or healthcare. When it comes to Unionizing a company, it is the workers who decides and votes to contract benefits into their workplace. Then in correlation, Union workers have more work opportunities. But ignorance, fear and lies, cheat them from achieving Union help and benefits. With membership support, we will gain ground, ever moving forward. Thank you all and I hope to see you at our next meeting or event.

In solidarity,

Zachary Merrill | Organizer
