

SOLAR SYSTEM COLLECTION

EARTH PLANT SEAT

A piece of furniture inspired by the planet Earth
and the relationship between the diversity of the soil and the vegetation.

It is made of wood with an oak veneer.

An elegant piece of furniture designed to be the seat
for a dressing table, as a helper for the bedroom, hall or living room.
The seat is upholstered in high-quality fabrics featuring painted floral motifs.

fabric passiflora grey

more information on catalog cards

The wood grain and the distribution of patterns on other finishing materials
are unique and do not constitute grounds for complaint.
