EARTH PLANT DESK / DRESSING TABLE

A piece of furniture inspired by the planet Earth – the contrast in the rocks and soils found on it, the graphic division into cultivated plots only visible from a bird's-eye view.

A furniture top with a visible wooden edge; even and narrow around the whole perimeter or asymmetrical, always with a recess for possible cabling outside the furniture.

Depending on the model, the steel structure of the furniture is complemented by three or five vertical wooden inserts.
