Civil Engineer

JOB REFERENCE	FUS-0094
LOCATION	Birmingham
SALARY	£30,000 to £40,000
EMPLOYMENT	
HOURS	7.5 hours per day
WORKING ARRANGEMENT	Four days office-based and one day working from home

THE CLIENT

A growing multidisciplinary engineering consultancy is appointing a Civil Engineer to its Birmingham team. The business provides civil, structural and geotechnical engineering and transport-planning services.

The civil team delivers drainage, highways and development-infrastructure design across logistics, manufacturing, residential and other development sectors.

THE ROLE

You will prepare civil engineering design information while building broader project responsibility with support from experienced senior engineers.

The role combines technical design, coordination, site visits and communication with clients and third parties.

KEY RESPONSIBILITIES

- Produce civil engineering drawings, calculations, reports and design documents.
- Use AutoCAD and relevant drainage and highways design software.

- Coordinate with project engineers, technicians and senior colleagues.
- Liaise with clients and third parties on technical matters.
- Complete site visits to review constraints and construction activity.
- Follow internal procedures and contribute to high-quality project delivery.

PROJECT DELIVERY

- Support projects from feasibility and planning through detailed design and construction.
- Apply relevant design guides, standards and CDM designer duties.
- Identify and manage risks within assigned areas of responsibility.
- Maintain accurate records and meet agreed delivery programmes.

REQUIRED EXPERIENCE

- A degree in engineering; a master's degree is preferred.
- Relevant civil engineering design experience, typically around two years or more.
- Experience preparing drawings, calculations and technical reports.
- Awareness of drainage, highways or development-infrastructure design.
- Clear communication and practical problem-solving skills.
- Ability to work consistently within a collaborative project team.

DESIRABLE EXPERIENCE

- Experience with AutoCAD, Causeway Flow, Civil 3D, KeySign or Lighting Reality.
- Knowledge of CDM designer responsibilities.
- Experience liaising with clients or approving authorities.
- Progress toward professional qualification.

WORKING ARRANGEMENTS AND BENEFITS

- One working-from-home day each week and flexible core hours of 10.00am to 4.00pm.
- 26 days' annual leave, with the option to buy or sell up to five days.
- Private medical insurance, health cash plan, life assurance and income protection.
- A discretionary bonus and payment of professional membership fees.
- Support for professional development through an ICE-certified training scheme.
