Structural Engineer

JOB REFERENCE	FUS-0123
LOCATION	Thames Ditton
WORKING ARRANGEMENT	1 day WFH

THE CLIENT

FUSION is recruiting a Structural Engineer for an established multidisciplinary construction consultancy in Thames Ditton. The structural team works across residential, refurbishment, commercial and heritage building projects within a wider surveying and construction consultancy environment.

THE ROLE

This is an experienced Structural Engineer opportunity. Existing chartership is not essential: the client is specifically interested in experienced structural engineers who are not yet chartered and may only be starting, or already progressing through, the chartership process.

Progress toward ICE or IStructE chartership is an important fit factor, but it is not a hard eligibility requirement. The role is based in Thames Ditton, with one day per week working from home under the company's normal policy.

KEY RESPONSIBILITIES

- Prepare structural designs and supporting calculations for building projects.
- Carry out site visits and attend design team meetings for live projects.
- Carry out structural inspections, report on defects and recommend remedial works.

REQUIRED EXPERIENCE

- Practical professional experience in structural engineering.
- Experience preparing structural designs and supporting calculations for building projects.

DESIRABLE EXPERIENCE

- Progress toward ICE or IStructE chartered status, whether at an early stage or closer to completion.

WORKING ARRANGEMENTS AND BENEFITS

- Thames Ditton-based role with one day per week working from home under the company's normal policy.

APPLICATION

Interested in this opportunity? Send your CV to contact@fusion-management.co.uk.

If you'd like to know more about the role or have any questions, just get in touch. We're here to help.
