Structural CAD Technician

JOB REFERENCE	FUS-0126
LOCATION	Canterbury
EMPLOYMENT	Permanent
HOURS	Full-time

THE CLIENT

FUSION is recruiting a Structural CAD Technician for an established structural engineering consultancy in Canterbury.

THE ROLE

You will work alongside the structural engineering team, using AutoCAD to prepare and develop drawings from engineers' designs, sketches and calculations. Projects include a mix of new-build and heritage work.

The role will involve updating drawings as designs develop and making amendments where required. Revit experience is not required.

KEY RESPONSIBILITIES

- Prepare structural drawings using AutoCAD.
- Develop drawings from engineers' sketches, calculations and design information.

- Update and amend drawings as designs develop.
- Maintain drawing accuracy and revision control.

REQUIRED EXPERIENCE

- Previous experience working as a Structural CAD Technician or in a similar role.
- Good working knowledge of AutoCAD.
- Experience producing structural drawings.
- Ability to interpret engineers' sketches, calculations and design information.
- Good attention to accuracy.

APPLICATION
