Associate / Lead Surveyor

JOB REFERENCE	FUS-0128
LOCATION	Canterbury
SALARY	Flexible, dependent on experience
EMPLOYMENT	Permanent
HOURS	Full-time

THE CLIENT

FUSION is recruiting an Associate / Lead Surveyor for an established specialist surveying business in Kent. The company provides measured building and topographical surveying services and forms part of a wider group, giving it a strong existing workload while it continues to develop its external client base.

The role is based primarily from Canterbury, with most current projects located across Kent. The work is centred on private residential property, including a significant proportion of period buildings.

THE ROLE

This is a senior, hands-on surveying appointment combining survey delivery, client contact and the development of more junior staff. The business needs someone who can take a leading role in the surveying function while continuing to work directly on projects.

The appointment is particularly important to the continuity and growth of the surveying business. It offers scope to become a central part of a small specialist team within a larger group, with established internal work and plans to win more work from external clients.

KEY RESPONSIBILITIES

- Carry out measured building surveys on private residential properties, including period buildings.
- Carry out topographical surveys across the company's project portfolio.
- Use laser scanning and total station equipment to capture accurate site information.
- Work directly with clients in a professional, clear and approachable manner.
- Train and support more junior surveying staff as they develop their practical capability.
- Contribute to the reliable delivery and continued development of the surveying business.

PROJECT DELIVERY

- Undertake site-based surveying work across Kent, where around 90% of current projects are located.
- Work with the company's Leica Laser Scanner and Leica Total Station as part of the existing surveying setup.
- Produce survey information suitable for measured building and topographical survey outputs.

REQUIRED EXPERIENCE

- Substantial hands-on experience delivering measured building surveys.
- Substantial hands-on experience delivering topographical surveys.
- Experience surveying private residential properties, including older or period buildings.
- Experience training or developing junior surveying staff.
- Experience working directly with clients in a client-facing surveying role.
- Availability to undertake regular site-based surveying work across Kent.

DESIRABLE EXPERIENCE

- Experience using Leica laser scanning equipment.
- Experience using Leica total station equipment.

WORKING ARRANGEMENTS AND BENEFITS

- Generous bonus scheme alongside the basic salary.
- Company car provided.
- Canterbury is the preferred base, with potential flexibility to work from satellite offices in Tunbridge Wells or Dartford.

APPLICATION
