

ACCELERATE MANUFACTURING INSIGHTS WITH POWERFUL SAP DATA INGESTION AND TRANSFORMATION CAPABILITIES

Snowflake, Fivetran, and Coalesce Accelerate the Extraction, Loading, Storing, and Transformation of your SAP Data for Fresher, Richer Manufacturing Insights

ACCELERATE YOUR MANUFACTURING DATA CLOUD INSIGHTS WITH FIVETRAN AND COALESCE

Execute your most critical workloads with insights drawn from SAP systems in Snowflake's Manufacturing Data Cloud. Automate the most time-consuming aspects of the ELT process with Fivetran and Coalesce to seamlessly extract, load, centralize and transform your data within Snowflake. Fivetran streamlines high-volume data movement while Coalesce standardizes data transformations at scale, empowering manufacturing enterprises to land and transform data in Snowflake to build consistently updated, low-maintenance pipelines. As a result, data teams can work more productively on high-impact projects and generate fresher insights faster with Snowflake's Manufacturing Data Cloud.

“

The combination of Coalesce and Fivetran has helped us re-imagine how to get the most from Snowflake by automating the complicated, manual aspects of ingesting and transforming data. Our team can now build and execute on current projects while planning for future needs, knowing we have the flexibility to deliver and manage optimized pipelines at scale.

GREATER DATA ACCURACY

Know and trust data from every stage in your production process. Fivetran delivers the most up-to-date and accurate view of all your disparate data into Snowflake for total visibility, while Coalesce provides column-level insights into how data changes as it moves through pipelines.

SEAMLESS, HIGH-VOLUME DATA MOVEMENT

Harness and transform immense volumes of incoming data from disparate tools, databases, services, and devices with a best in class data stack. Together, Fivetran, Coalesce, and Snowflake help data teams ingest, unite, and transform data for large-scale projects while remaining adaptable enough to meet changing business needs.

BUILT FOR SCALE

Connect to systems, tools, and IoT devices and prepare business-critical data for transformations quickly and easily. As your business and teams' needs evolve, Fivetran, Coalesce, and Snowflake scale alongside you to support the most ambitious data initiatives.

AUTOMATED FOR EFFICIENCY

Empower data teams to focus on impactful work without sacrificing pipeline quality. Fivetran and Coalesce enable Snowflake manufacturing customers to deliver fresh, quality insights faster with an automated ELT solution that delivers efficient and reliable data pipelines.

Centralizing Manufacturing Data for Data Analytics

ACCELERATE DATA MOVEMENT AND TRANSFORMATIONS AT SCALE

Automated Data Movement

- Automated schema migration
- Pipelines built to access all tables/reports available from data sources
- Low-impact CDC (change data capture)
- Customizable pipeline sync frequency
- API change management
- Ability to add new data sources from IoTs and elsewhere in minutes

Standardized, Scalable Transformations

- Hybrid interface with visually customizable graphical user interface (GUI) and flexible command line interface (CLI)
- Full Snowflake functionality support and direct connection via OAuth authentication
- Out-of-the-box templates for common data transformation patterns
- Built-in column-level lineage, stored metadata for all warehouse environments

About Snowflake

Snowflake enables every organization to mobilize their data with Snowflake's Data Cloud. Customers use the Data Cloud to unite siloed data, discover and securely share data, and execute diverse analytic workloads. Wherever data or users live, Snowflake delivers a single data experience that spans multiple clouds and geographies. Thousands of customers across many industries, including 543 of the 2022 Forbes Global 2000 (G2K) as of October 31, 2022, use Snowflake Data Cloud to power their businesses. Learn more at snowflake.com

About Fivetran

Fivetran is the global leader in modern data integration. Our mission is to make access to data as simple and reliable as electricity. Built for the cloud, Fivetran enables data teams to effortlessly centralize and transform data from hundreds of SaaS and on-premises data sources into high-performance cloud destinations. Fast-moving startups to the world's largest companies use Fivetran to accelerate modern analytics and operational efficiency, fueling data-driven business growth. Fivetran is headquartered in Oakland, California, with offices around the world. For more information, visit fivetran.com.

About Coalesce

Founded in 2020, Coalesce is the only data transformation tool built for scale. As the first platform to combine the speed of an intuitive graphical user interface (GUI), the flexibility of code, and the efficiency of automation for data transformations, Coalesce customers benefit from increased data engineering productivity and insights. Based in San Francisco, California, Coalesce is backed by Emergence Capital, 11.2 Capital, GreatPoint Ventures, and Industry Ventures and supports customers worldwide.
