

# Industrial Compactors

(Roll-Off Dumpster Services for Trash/Recycling)

## Get the Job Done Right With Industrial Compactors That Pack A Punch

Our industrial compactors bring cost-effective solutions to your business — and the environment too. Ideal for customers with a high volume of solid waste and/or recyclables, you can rely on our compactors for uses such as commercial & industrial needs, apartment complexes, hospitals, nursing homes, and more!

Ready to book your industrial compactor? Available sizes include 10, 20, 30, and 40 yards — and we can also provide custom configuration options for your unique needs.

### The Florida Express Waste and Recycling Advantage

- ✓ **Customizeable** - We can personally design your unit to suit your needs in the safest, most efficient manner.
- ✓ **Reliability** - We design, install, and service the compactor to ensure 24/7/365 uptime — helping your business run smoothly when it matters most.
- ✓ **Odor Control** - Eliminate unwanted odors and pests with the help of additional equipment or services!
- ✓ **Experience** - Operating since 1982, we have the experience necessary to recommend, install, and service the most complex or simple waste and recycling streams.

## What Clients Are Saying

*We started a new operation in Ocala, FL and Florida Express helped us to design and install multiple compactors on our property. Their expertise in the industry saved us money & we now have the most efficient systems to dispose of our waste and recyclables.*

- Gary L
